THEORIZES IN DROWN TRIAL

Dr. S. H. Buteau, as Expert, Gives Views to Rebut Defense

Eugenics Exaggerated Supplement to Efforts of Nature

Eugenics as expounded by learned professors and students in psychology and theoretically carried out in Boston and elsewhere is only an exaggerated practice of the work conducted by nature herself, according to the opinion of Dr. S. H. Buteau, called as an expert by the prosecution today to express his views as to the sanity of Mrs. Willie Drown, who is on trial for murdering her husband. Dr. Buteau testified in rebuttal of contentions of the defense that Mrs. Drown was insane when she committed the crime.

"It is the natural tendency of the human race to improve," said the doctor. "The progeny of defective parents invariably show an improved physical condition. Under such conditions nature seeks to rectify instead of destroy."

The statement referred to certain inherited traits alleged by the defense to have impaired the reasoning powers of Mrs. Drown. In placing its case before the jury the defense sought to show that through the lineage of her ancestry she had become mentally deficient. District Attorney Hynes is going upon the theory that the defendant was sane when she committed the crime and testimony in rebuttal has brought out that she at least was suffering from hysteria.

"Such a thing as temporary insanity does not exist. It is really hysteria," was his attitude in describing the condition of the subject in the case at hand.

Testimony taken during the last few days of the trial has been of a highly technical character involving deep study in professional subjects. Attendance on the part of the women spectators which filled the courtroom during the beginning of the trial three weeks ago has fallen off. Arguments will commence next week and the case will probably not go to the jury before next Wednesday or Thursday. The district attorney has put up a stubborn fight to obtain a conviction, and the outcome of the case is a matter of considerable conjecture at the present time.

Kills Family, Fires Home, Shoot Self

OAK PARK, Georgia, March 20.—J. A. Eubanks, a farmer living near this place, early today killed his wife and two daughters as they slept, set fire to his home and farm buildings and then fired a bullet through his forehead, dying in a short time.

POLICEMAN PROVES TRUE HERO

VICTIMS OF THE FIRE IN WEST OAKLAND LAST NIGHT WHO WERE SAVED BY POLICEMAN E. J. O'DONNELL: LEFT TO RIGHT, MRS. WILLIAM DIOS, HER DAUGHTER, EVELYN, AND WILLIAM DIOS. BELOW, VIEW OF THE WRECKED BUILDING, WHICH WAS THE HISTORIC HANSEN HALL.

PROMPT ACTION IN FACE OF DANGER

Officer O'Donnell Goes to Rescue of Imperiled Lodgers

Five people were rescued last night from the lodging house above a bakery at Gess and Wood streets by Patrolman E. J. O'Donnell, who discovered the fire. The fire caused damage amounting to about \$35,000, destroying the Dios Bakery, the old home of the West Oakland Athletic Club, known as Hansen Hall, the De Luchi grocery company's store, the West Oakland Bazaar and the saloon of C. Murphy.

O'Donnell discovered the fire at 11:30 o'clock in the bakery of William Dios. He rushed up the stairway leading to the apartment occupied by Dios and his family. Dios had been awakened by the fire and had attempted to leave his room but was stopped by the flames and smoke and was lying in the doorway unconscious. O'Donnell dragged Dios hurriedly down the stairway to the street and ran back into the building. He found Mrs. Dios with her two children, a 3-year-old boy, and a six months' old girl in the bedroom.

O'Donnell carried the two children to safety in the street, believing that he was followed by Mrs. Dios, but when he reached the open air he discovered that the woman had not followed him.

He returned again to the burning building and found that Mrs. Dios had fainted. He staggered down the stairway and into the street, where he collapsed as the result of his three trips into the smoke-filled apartment.

The fire department had been summoned and a good fight was being made

Two Explosions Shake Buildings and Awaken Residents

IRVINGTON, March 20.—Two dull explosions which shook the buildings in the main street of Irvington and awoke many of the residents at 2 o'clock this morning accompanied the blowing up of the safe in the post-office in the Odd Fellows' building, and the wrecking of the office, but it was not until about 8 o'clock this morning that it was discovered safe-breakers had been at work. The exact sum taken from the wrecked safe is not yet known, but it is thought to be not above \$100 in coin was secured by the daring safe-breakers.

Dr. E. A. Grimmer was awakened by the first explosion and on looking out saw a man standing at the corner of the main street, about 150 feet away from the postoffice, who moved like a cat, evidently as a warning signal to his confederates at work in blowing up the safe. Dr. Grimmer says it was too dark for him to see anything but the outline of the man, who appeared to be of medium height.

INTERIOR TOTALLY WRECKED. The fact that the postoffice door was open this morning first drew the attention of passers by. The interior of the building was totally wrecked by the force of the explosions, the glass panels being shattered and everything thrown about in disorder. Both doors of the safe were blown open.

All the interior compartments of the safe in the hope of finding a large sum of money which they evidently believed had been left over night. Miss Helen Blacow, postmistress, had taken most of the money to the bank before closing the office for the night.

'SIR HARRY' COOPER TO BE EXTRADITED

Notorious Offender Who Wedded Oakland Girl to Be Tried Here

Chief of Police Petersen is instituting proceedings for the extradition of "Sir" Harry Westwood Cooper, alias Dr. Milton Abraham, alias Ernest Moore Chadwick, who eloped from Oakland after marrying Miss Anna Milbrath of Oakland, a pretty nurse, although he had several wives living at the time. This happened after he had passed several bad checks and had attempted to cash a draft for \$10,000 drawn on a Canadian bank. Cooper succeeded in getting from California to South Africa, passing through various cities of the United States and Canada and abandoning his last wife, Miss Milbrath, in London.

In Durban, South Africa, he recommenced his operations as a forger and check passer, and was finally

LABORER IS SOUGHT BY POLICE

Dying Farmer Told of Recognizing Slayer's Voice

Former Employee, Having Grudge, Under Suspicion

Oscar Schiller, a laborer who was formerly employed on the duck ranch at Stanley road and Grant avenue, is believed by the police to be the murderer of Fred Altschwager, who was shot Wednesday night at his ranch. In a dying statement Altschwager told the police early yesterday morning that he had recognized the robber as Schiller and that he knew his voice.

Evidence obtained by Inspectors Richard McSorley and Thomas Wood, points to a corroborator of Altschwager's dying statement and it is also corroborated by the statement of Hans Altschwager, a nephew of the murdered man.

Chief of Police Petersen, acting on the information obtained by McSorley and Wood, is sending out circulars to all the police departments in California today with descriptions of Schiller and requests for his arrest.

Schiller, formerly worked for Altschwager at the duck ranch, but had trouble with his employer. He was alleged to have stolen money and when he refused to leave the place he was driven off the premises by Altschwager, who was armed with a pitchfork.

STOLE AFTER MURDER. The police learned that Schiller was seen near the ranch the day previous to the murder. Another incriminating circumstance is the fact that the murderer, after shooting the elder Altschwager and trying his nephew Hans to the same wagon, went to the house and stole \$300.

COLORADO FUEL CO. SUES MINE WORKERS

Demand \$1,000,000 as Damages and Body Judgments

TRINIDAD, Colo., March 20.—Charging a combination by United Mine Workers of America, to injure the business of the coal corporation, a suit asking for damages to the amount of \$1,000,000 and a body judgment against John P. White, president; Frank J. Hayes, vice-president, and a score of others, was filed today in the district court of Las Animas county by the Colorado Fuel and Iron Company.

The complaint charges that in furtherance of the alleged combination and conspiracy the officials of the United Mine Workers of America caused large quantities of guns and ammunition to be purchased for use, and that same were used in terrifying the said employees of plaintiff into striking and that defendants caused inflammatory speeches to be made to plaintiffs' said employees, which speeches contained intimations and insinuations and statements that personal injury and abuse would come to those who failed to respond to said call of strike.

FEARED PERSONAL ABUSE. It is declared that about one-half of the employees of the company went out on strike and that the greater portion "did so because the purchase of ammunition and arms had caused them to fear personal abuse or bodily injury if they remained."

The defendants are charged with "most violent, riotous, unlawful and felonious conduct" in the directing of the strike. It is charged that the strikers' tent colonies were so "constructed, guarded, policed and manned as to be invulnerable."

Of those who might want to seek employment with the company and that "defendants caused rifle pits to be constructed around the tent colonies." It is charged also that men were restrained in the tent colonies when

Earth Opens Up and Swallows 2 Miners And Work Shanty

POTTSVILLE, Pa., March 20.—The earth opened and swallowed two miners and a work shanty on the mountain side at Keshley Run colliery at Shenandoah today and although large forces of men have been put to work on both sides of the mine and at the surface, no trace of the men or building can be found. They may have dropped a distance of 500 feet or any portion of it and it may require weeks to learn their fate.

Sentenced Trio Gives Bonds for Release Pending Appeal

The three Western Fuel Company officials were sentenced by Federal Judge Dooling yesterday as follows:

JAMES B. SMITH, vice-president and general manager, eight months in San Quentin and \$5000 fine.

FREDERICK C. MILLS, superintendent, eighteen months in San Quentin.

EDWARD H. MAYER, one year in Alameda county jail.

SAN FRANCISCO, March 20.—The Western Fuel Co. officials were sentenced today to serve terms in prison for conspiracy to defraud the government on coal weights, appeared before Judge Dooling this morning. A local bonding company put up bail for their release, pending an appeal. James B. Smith was let go on \$10,000 bond, F. C. Mills on \$7500 and E. H. Mayer on \$5000.

Cutting Estate Tax One Of County's Largest

One of the largest inheritance taxes paid in Alameda county under the new law is that due from the estate of the late Francis Cutting and amounting to \$857,228, according to the report of the appraiser which was filed today in the superior court.

The executor of the \$1,000,000 estate totaled \$82,644.75. Owing to the provisions of the probate laws the Pacific Unitarian School, which was bequeathed \$100,000 and certain residue, making a total of about \$125,000 is eligible to amount bequeathed and will therefore be paid out \$125,000. The largest other beneficiary under the will is Francis Cutting, a son, who receives \$161,053.30.

Francis Cutting was a pioneer fruit packer of this county and founder of the Cutting Packing Company. He died on October 1, 1913.

CARS HELD UP BY 150 MEN

Redding Police and the Sheriff of Shasta Make No Move

Railroad Officials May Have to Force an Issue

REDDING, Cal., March 20.—One hundred and fifty unemployed men from Sacramento seized a north bound freight train today and are holding it with the encouragement of the city police and the sheriff of Shasta county.

The men seem to enjoy the humor of the situation and are waiting hungrily but cheerfully the arrival of Southern Pacific special officers from Dunsmuir, who will attempt to dispossess them. No food is being furnished the men either by the city or individuals.

At midnight the men attempted to leave town by a northbound freight train.

Railroad police stood them off. They boarded another freight train today, unopposed, but the company refused to move the train and sent to Dunsmuir for officers. The officials take the stand that inasmuch as the men were given free transportation from Red Bluff to Redding Wednesday night on a freight train, they be given like transportation out of town. The men arrived in Redding yesterday.

JAILED AT LOS ANGELES.

LOS ANGELES, March 20.—Fifty unemployed men who disobeyed a police regulation not to camp last night in the Los Angeles river bed were arrested early today and placed in the city jail. The arrests, which were made without any trouble, were based upon the allegation that the men had violated a city ordinance prohibiting encampment on public lands. "John Doe" warrants to the number of 200 were issued last night in preparation for the arrests if any of the 150 men who gathered there yesterday were still in camp today. A heavy fog which drifted along the river valley prevented the police from seeing the unemployed to warmer quarters and only a third of the band remained in camp.

O'Shaughnessy Said To Have Resigned

MEXICO CITY, March 20.—O'Shaughnessy, American Charge d'Affaires, admitted today that he was seriously considering the question of resigning. He says, however, that if he does resign it will be because of ill-health. O'Shaughnessy's physician is not optimistic regarding his patient's early recovery from his attack of sciatica.

Some wonderment has been aroused here by the knowledge that O'Shaughnessy will go to Vera Cruz tonight, accompanied by Thomas B. Hobler, British Charge d'Affaires here.

O'Shaughnessy says that if his health permits he will return Monday. He denies any knowledge of a conference between John Lind, personal representative of President Wilson, and Joseph Portillo y Rojas, the Mexican foreign minister. Senior Portillo was reported today to be at Orizaba.

from Altschwager's room. The house is peculiarly arranged and only a person familiar with the position of the rooms could have gone directly to the place Altschwager kept his money in the brief time at the disposal of the laborer.

A peculiar circumstance that has come to light is that the murderer met a laborer, John Gratian, who has been employed by the Altschwagers on the ranch for the past eleven days. The laborer had at that time shot the elder Altschwager and had fled the nephew to the wagon.

Apparently not knowing that Gratian was there, the two men met in the dark doorway at the entrance to the house and Gratian, not knowing that the man was not employed at the place, asked him if he had heard a shot.

TRIES TO EXPLAIN EXPLOSION.

The man replied that he thought it was an automobile tire exploding, and immediately disappeared. A few minutes later Altschwager, who had managed to wiggle himself free of the coils of rope, appeared and told Gratian of the shooting of his uncle and the two had then tried to obtain a doctor.

Inspectors McKinley and Wood spent all day yesterday investigating the case and believe that if Schiffer is captured they will be able to make a strong case against him in the court.

Woman Lawyer Forgets Defendant in Court

SAN FRANCISCO, March 20.—Superior Judge Dunne again this morning delivered himself of a bit of criticism as the result of the advent of women into the profession.

Miss Philaetha Michaelson, attorney at law, who had forgotten an appointment in Judge Dunne's court, was indirectly responsible for his aggravation. Albert Weber was about to be arraigned for judgment on a robbery charge when it was discovered that Miss Michaelson, his counsel, was absent.

"I suppose that we might expect that the bar would be furnished with an example of promptness, faith and loyalty by feminine counsel for the defendant," said His Honor, "but it seems likely to be disappointed as there does not seem to be much improvement on the male method of doing things."

A young lawyer, the "attorney" was appointed to represent Weber and he asked for a continuance until Monday.

Shortly after 2 o'clock the second explosion occurred. W. W. Hirsch, a plumber, who lives in a house at the rear of the postoffice, heard the noise of the explosion and rose and looked out of the window. Sheriff Frank Barnett and a posse of deputy sheriffs and constables are scouring the surrounding country and trains are being closely watched, but so far no trace has been found of the safe-breakers.

Constable Frank Rose of Niles and Deputy Sheriff S. B. Van Derspoort are aiding Sheriff Frank Barnett in the case. Constable Rose left this morning to investigate.

POLICEMAN HERO OF LODGINGS FIRE

Rescues Five Persons After Risking His Life in Efforts.

against the flames which had spread to an adjoining building.

Half an hour after his rescue of the Dins family, Patrolman O'Donnell found Fireman Charles Blaker of Engine Company 5, lying unconscious and overcome by smoke on the second floor of the oldest Oakland Athletic Club building. He shouldered the fireman and carried him down the stairway into the street.

A report of O'Donnell's bravery will be made by Chief of Police Petersen to Commissioner of Public Health and Safety Turner and it is possible that the city council will pass resolutions commending the patrolman.

The building, which was gutted by the flames, was one of the landmarks of West Oakland. It was more than 20 years old and the upper story, known as Hansen Hall, was the home of the old Wheelmen Athletic Club, which first met popular four-round boxing bouts in Oakland. The West Oakland Club was organized at this hall in 1897, and here the fights of the club were held until 1906. From that time on the hall has been practically unoccupied, being used only for small dances and other social affairs.

STARTS IN SHED.

The fire was discovered last night at about 11:30 o'clock. It had started in a small shed in the rear of the Dins bakery, and the cause has not been determined by the police. Dins declares that there were no inflammable materials in the shed, and that he is at a loss to explain the fire unless a cigar butt or other burning object was dropped into the structure. The police are investigating the matter. None of the stores destroyed carry insurance sufficient to guard them in any large degree, the heaviest insurance being carried by the grocery store which will, however, according to its owner, be a heavy loss. The building was of brick and concrete.

The names had gained considerable headway on the arrival of the fire department and the interior of the hall was a roaring sheet of fire. Against this the firemen put up a hard fight, but were unable to check the blaze.

WEST OAKLAND BAZAAR.

The West Oakland Bazaar, one of the stores destroyed, is another West Oakland landmark. The stores all occupied the lower part of the building which housed the athletic club.

"I don't know much about it," declared Mrs. Dins. "One police man came in and hauled us out after smoke had filled the place, and we could not see. My husband was in bad shape from breathing the smoke. I guess he would have been burned if we hadn't been helped to escape. The whole thing happened so quickly that it is hard to tell anything about it."

The family were taken to the home of a relative where they are being cared for. The bakery is a complete loss.

they desired "to return to work" and that men brought in by the company to fill the places of the strikers were threatened and intimidated."

It is claimed that the acts of the defendants have deprived the company of the services of its employees, reduced the output of its mines and coke ovens, increased cost of production and inflicted damage to cover which \$1,000,000 damages are asked.

WELCOME THE LITIGATION.

DENVER, March 20.—Horace N. Hawkins, attorney for the United Mine Workers of America, made a statement today regarding the damage suit filed at Trinidad, in which he said:

"This suit will give the United Mine Workers of America the opportunity for which it has been looking, namely to show in court that John D. Rockefeller's company and other companies which are allied with the Colorado Fuel and Iron Company constitute a gigantic trust, operating in violation of law and engaged in oppressing the people in prices charged for coal. We welcome the litigation and will insist upon its trial. Mr. Doyle and the other workers who are sued for a million dollars, have back of them all organized workmen throughout the United States."

\$400,000 Property to Remain in Durst Family

Control of the valuable realty holding at Broadway, Webster street, Twenty-second street and Twenty-third street will remain in the Durst family, by whom it was recently purchased from the Moffitt Trust Company for \$1,000,000. Mrs. M. Durst, executrix in the estate of the late Murray H. Durst, today made a return in the Superior Court before Judge Wells of the sale of her husband's interest to Ralph H. and Jonathan Durst. She received \$73,323.33 for his share in the holdings. Another parcel of land located in Elmhurst was sold to J. M. Ermerine for \$55,000.

Recently it was rumored that the block on Broadway and Twenty-second street had been purchased in prospect that the site would be used in constructing a downtown depot for the Oakland, Eastern and Western Railway and possibly for a union depot to be used by other railroad companies in the future.

The sale was a portion of property in the Durst estate valued at nearly \$1,000,000, which the widow has petitioned the court to be allowed to sell.

KNOWLAND TO RUN FOR U. S. SENATE

Formal Announcement of Candidacy to Be Made in Press Monday.

WASHINGTON, March 20.—Representative Joseph R. Knowland of Alameda is a candidate for the Republican nomination for United States Senator from California. Knowland's announcement of his candidacy will be made simultaneously in the California newspapers next Monday.

Announcement that Knowland will be a candidate for Senator was precipitated here today by telegrams from California saying it is rumored throughout the State that the Alameda Congressman would be a candidate for the Republican nomination for Governor. To set at rest these rumors, Knowland last night said he is a candidate for the Senate, and that his formal announcement will be made in the State press next Monday.

Since the political race began to boil in California, Knowland has received hundreds of letters and telegrams from every section of the State urging him to run for the Senate. Knowland, who is the dean of the California House delegation, will be a candidate to succeed Senator Perkins, whose term expires March 3, 1915. Perkins is not a candidate for re-election. It is the consensus of opinion among Californians here that Knowland will be able to easily defeat both Henev and the Democratic candidate for the Senate.

SLEUTHS RON DOWN ALLEGED OPIUM GANG

SAN FRANCISCO, March 20.—After weeks of night-long staking out of various clues, Customs inspectors this morning arrested Fong Quone, a steward, John Berta, an engineer, and Frank Talbot, ships carpenter, members of the crew of the steamship Alaskan, and charged them with smuggling opium.

The men were taken into custody as the result of finding \$5000 worth of the contraband drug beneath the cargo of lumber on the vessel yesterday. They were taken before United States Commissioner Krull and a further investigation is being held.

VICTORS IN SUFFRAGE DEFEAT

The Vote in Senate Just What They Expected Say Leaders

Mrs. Blatch Intimates a Fight to Cut Down Majority

NEW YORK, March 20.—With the

Blatch, president of the Women's Political Union, the leaders of the organization engaged in the campaign to enfranchise women, said today the vote on the constitutional amendment in the Senate at Washington yesterday was just what they had expected. Mrs. Blatch expressed sympathy for the Democratic party and declared that the vote would result in a fight to cut down the small Democratic majority in the Senate and to attain this end she would join the Congressional campaign. Dr. Anna Howard Shaw, president of the National Woman Suffrage Association and Mrs. Carrie Chapman Catt, head of the International Suffrage Alliance, held to the opinion that it would be bad policy for the suffragists to fight a political party.

Dr. Shaw said that this was not the time to expect enfranchisement from Congress, adding that "we must get the vote in a few more states."

SEE TRIUMPH IN DEFEAT.

Suffrage leaders were pointing today to the majority of one vote in favor of the amendment as proof that their cause had scored a triumph in defeat, and was far stronger than its opponents had ever been willing to admit. They profess to see in the action of the Senate only a temporary set-back in their fight and express the belief that woman suffrage would eventually come. They were hoping today that the Senate would reconsider its action before the close of the present session.

READY TO RENEW FIGHT.

Despite their defeat, suffrage leaders were prepared to renew their fight to secure the passage by the Senate of a constitutional amendment enfranchising women. To this end, it was announced today, they would support the proposed amendment of Senator Shafroth of Colorado. The Senator endeavored to offer his amendment yesterday, and though unsuccessful, will introduce it later. This amendment would require each state to vote on the question of extending the right of suffrage to women upon petition of five per cent of its voters.

The National American Woman Suffrage Association announced today through Mrs. Medill McCormick, chairman of its Congressional committee, that it would support the new amendment. "Such a sentiment in the Senate," said Mrs. McCormick, "is strong enough to warrant us in renewing our efforts to secure national legislation and the amendment proposed by Senator Shafroth will."

Many of the objections raised during the debate in the Senate and the cause of suffrage will be advanced if we can secure favorable action on this resolution during the present session."

PLANNING BIG DEMONSTRATION. Suffrage leaders were also going forward today with their plans for the big woman suffrage demonstration here May 3. They said today that ten thousand women would take part in the parade and that it promised to be the most beautiful and spectacular procession that has ever taken place. No effort is being spared to make it an artistic affair.

The Congressional Union for Woman Suffrage, under whose auspices a nation-wide demonstration will be held May 2, announced today that advice received from organizers in the field showed that the deepest interest is being shown in the proposed demonstrations.

Mrs. Arthur M. Dodge, president of the National Association Opposed to Woman Suffrage, in a letter to Chairman Rucker of the House committee on election of Presidents and Vice-Presidents, made public today, wrote that she would not ask that her association appear before the committee to answer arguments which will be advanced in favor of women's suffrage by the Federal Equality League at a hearing on March 24.

CHARGES ADVERTISING MOTIVE.

Mrs. Lodge in her letter, charges that the suffragists asked for this hearing "for publicity only, again using the machinery of the federal government for advertising purposes."

"We consider it useless," she added, "to take the time and attention of your committee to hear again arguments against woman suffrage which have already been presented before other committees this winter."

Pointed to the majority of one as conclusive proof that their cause had scored a triumph in defeat, and was immeasurably stronger than its opponents had ever been willing to concede.

CLIMAX OF SPIRITED CAMPAIGN. Today's action, following weeks of debate on the floor of the Senate during which many leaders in the suffrage movement pleaded for postponement of the final vote, marked the climax of a spirited campaign launched here the day before the inauguration of President Wilson.

Immediately after the vote Senator Shafroth of Colorado sought to introduce a new resolution for a constitutional amendment requiring each state to vote on granting suffrage to women, upon petition of five per cent of its voters. The Senate went into executive session before the Senator could get the floor, however, and the resolution will be offered later.

SOUTH SOLIDLY OPPOSED.

The resolution defeated today was the first introduced in the present Congress. It was presented by Senator Chamberlain of Oregon and the woman suffrage committee later authorized Senator Ashhurst to report it favorably.

minutes the decision in the contempt case wherein the corporation was fined \$2000 because of the failure of David Norcross to turn over the books to the grand jury. This was taken to mean that the company will pay the fine and will not appeal to the United States Supreme Court.

JUDGE PRONOUNCES SENTENCE. After denying application of counsel for a new trial for the three officials, Judge Dooley last evening pronounced sentence as follows:

James B. Smith, vice-president, general manager and director, eighteen months imprisonment in San Quentin penitentiary and a fine of \$5000.

Frederick C. Mills, superintendent, eighteen months imprisonment in San Quentin penitentiary.

Edward H. Mayer, cashier, one year's imprisonment in the Alameda county jail.

As soon as the judgment of the court had been heard, Attorney Samuel Knight asked a stay of execution for thirty days, in which to prepare a bill of exceptions. The stay was granted.

MAVER'S SENTENCE CHANGED. At first pronounced, Edward H. Mayer was sentenced to serve one year and one day in the penitentiary, but owing to a request from his attorneys that he be allowed to serve his sentence in Alameda county jail, the dictum was changed to imprisonment for one year in that institution.

With the opening of court at 2 p. m. yesterday, Samuel Knight, attorney for the defense, presented his argument, followed by the prosecution.

Three hours were required by the defense to state its grounds for a new trial. Special Prosecutor Theodore Roche and Stuart L. Sullivan, for the government, had little difficulty in convincing Judge Dooley that justice had been served and a fair and impartial trial accorded the three defendants. The application was denied at 6:55 p. m. and sentence pronounced.

CONTENTIONS OF DEFENSE. The defense based its contentions upon the absence from the record of testimony sufficient to justify the verdict; alleged misconduct on the part of individual jurors; misconduct of the attorneys for the government and insufficiency of evidence to convict.

The maximum penalty for the charges upon which the three men were found guilty is two years imprisonment or a fine of \$10,000, or both.

"The sentence was not much of a surprise," said James B. Smith last night, "not more so than the whole thing. We will most certainly take an appeal."

Mills observed that he was as much surprised at Judge Dooley's decision as he was at being originally indicted. He, too, expressed himself sanguine of a change in his fortunes when the higher federal court reviewed the case.

Mayer was too downcast to express himself one way or the other. His brother, Joseph Mayer, an attorney, announced for him that every effort would be made to get a new trial in the higher court.

Don't You Feel Right?

Blame The Kidneys Then.

Kidney disease is becoming more prevalent in our country on account of our careless mode of living, and it behooves everyone to be on guard. If sharp pains shoot through the small of the back you perceive a tenderness on either side of the spine, are nervous, restless, and suffer general debility with headache, dizziness and shortness of breath, heart action is irregular, the skin hard and dry, and complexion is sallow—any of these symptoms may indicate that the kidneys are inflamed. That powerful irritant uric acid has not passed off because the kidneys are in a perfectly healthy condition. Warner's Safe Kidney and Liver Remedy not only removes the early symptoms of kidney poisoning, but it is an invaluable remedy in the advanced stages of kidney disease. and Frank Kelly, who said he was a brother of "General Kelly" of the "army of unemployed" in the Sacramento valley, the men who gathered here had planned to march northward as soon as they had enlisted 700 or 800 men. They had hoped to join Kelly's forces in Yolo county.

LOS ANGELES, March 20.—Morris Rose, leader of the unemployed, whose organization was broken by police today, was arrested this afternoon, charged with begging. The charge was based upon his solicitation of funds to finance the proposed march of the unemployed to Sacramento.

LOS ANGELES, March 20.—Rose and Kelly declared that interference with their plans by the city and county authorities would only result in the organization of an army of twenty thousand men who in reprisal would force Los Angeles to feed them. They have called a mass meeting for tomorrow at the plaza where the riot occurred last Christmas and announced that they hoped for the city's good, that no attempt would be made to molest them.

SACRAMENTO ARMY NUMBERS 157. SACRAMENTO, March 20.—In the camp of the unemployed north of Sacramento there are but 157 men, the remainder of the army of the unemployed which invaded Sacramento nearly two weeks ago. The presence of the idle men has caused something like a panic among the residents in the suburbs. There has been no trouble of any sort and none is threatened. Four special deputies in charge of former Chief of Police William Ahern, were sworn in yesterday to keep watch over the unemployed.

There has been a radical change in the attitude of the unemployed during the last twenty-four hours. The leaders of the men sent word today to the district attorney that the men were not vagrants but that all were willing to accept positions if they could find them. They asserted the officials they would obey the laws and assist in preserving order. They also informed the district attorney that they had money to pay for food without foraging and that more money would be sent from San Francisco. When asked who was furnishing the money for the march, he replied that they were not prepared to make public these facts.

For the present the officials of the county will assume a policy of watchful waiting.

SOCIALIST MEETING INVADED.

NEW YORK, March 20.—Fifty young men, marching under the banner of the Industrial Workers of the World, invaded a mass meeting of the Socialist party in Cooper Union last night. Joseph O'Carroll, who has taken a leadership in the recent activities of the unemployed, was attacked by others when he declined to stop speaking when requested to by the Socialist chairman.

A fight ensued. O'Carroll's following striving to the front to aid him. The police rushed into the hall and order was restored after a number of persons had fled from the building. May was in the audience.

O'Carroll was arrested, charged with inciting a riot.

The Socialist meeting was called in the interest of the unemployed.

Portuguese-American Bank for Oakland

The remarkable growth of Oakland and its promising future as an investment field, was again exemplified today when it was announced that a new financial institution, the Portuguese-American Bank, would be established here, opening its doors July 1.

Quickly for several weeks the directors of the Portuguese-American Bank of San Francisco have been looking over the ground and either this afternoon or tomorrow a lease will be signed for a prominent corner in the business district of Oakland, where the bank will establish its headquarters.

J. A. Silveira, president of the American Creamery, Tenth and Cypress streets, and whose home is at 771 Prospect avenue, will be president of the new institution. He now heads the Portuguese-American Bank and the bank here will be a branch of the one across the bay with the same officers and directors. Among the latter is Dr. M. M. Enos, who resides at the Hotel Oakland.

Why Suffer From Migraine or Sick Headache? USE ANTI-KAMNIA TABLETS

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodical attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and finally disappear entirely. Palliative measures are suggested, while care in the diet is the best preventive measure. An attack may often be prevented by taking two Anti-Kamnia Tablets when the first symptoms appear, and one Anti-Kamnia Tablet every two hours during the attack shortens it, eases the pain and brings rest and quiet. LOS ANGELES, March 20.—An application for permission to excavate in Elysian Park for "hidden treasure," was on file today with the city park commission. The application was by T. J. Stephenson and George W. Taylor, recent arrivals in Los Angeles, who declined to state why they believed "treasure" had been hidden in the park. They merely promised if they found anything of value they would show it to the public. The application was taken under consideration.

PLAYGROUND IS CLUB'S DONATION

\$200 to Be Spent by Elmhurst Mothers for Benefit of Children.

ELMHURST, March 20.—The sum of \$200 raised by the Elmhurst Mothers' Club will be spent in laying out a fully equipped playground for the children of this district. This money was raised last year by means of an entertainment, but the club did not carry out the playground

might have the co-operation of the Board of Education in improving the school and placing a fence around it. As this year's budget does not provide for such improvements the Mothers' Club has decided to go ahead with its own scheme and has ordered all the amusement paraphernalia, including swings, slides, and horizontal and parallel bars.

The club is arranging a celebration to mark the securing of a playground, and an entertainment will be given in the Grand Theater here sometime in April in which the children will take part. There will also be moving pictures. Mrs. C. E. Wilson, Mrs. J. T. Smith and Mrs. J. M. "Trackwell" are in charge of the entertainment program. A candy booth will be superintended by Mrs. E. T. Senn and an ice cream booth by Mrs. E. D. Hill. One performance will be given in the afternoon and two in the evening.

MYSTERIES ARE MANY AT ENTERTAINMENT

FRUITVALE, March 20.—That there are wheels within wheels was demonstrated by the Ladies' Aid Society of Fruitvale Congregational Church whose "mystery" entertainment in the church armory was decidedly novel. Surprises awaited one at every turn, and each brought a laugh. In honor of St. Patrick's day the armory was decorated with green boughs, while everyone who entered the building without wearing something green had to kiss the blarney stone.

One of the biggest surprises awaited Mrs. Edville E. Roy, wife of the pastor, who received a birthday gift consisting of a beautiful pastel picture. The presentation was made by Rev. John Sharp, a retired minister. Mrs. Roy gracefully acknowledged the gift. The entertainment included a clever sketch by Mrs. Arthur Barker and Mrs. Leland Clark. The committee in charge of the entertainment included R. E. Reeves, who was master of ceremonies. Mrs. J. A. Jory and Mrs. Robert James. The women of the Congregational Church will give a dramatic entertainment in the armory March 31. They are also preparing to hold a big garden fete sometime in May.

SUSPECT CLAIMS TO BE DOWN AND OUT ENGINEER

SAN LEANDRO, March 20.—Edward Haight, an old man who said he was once a prominent civil engineer, and who was picked up in a destitute condition by Constable Borge about two months ago and taken to the County Infirmary, told Constable Borge for the second time last night, this time on suspicion of stealing two sets of harness. Haight went round town yesterday trying to sell the harness and tried to make a bargain with Borge. The constable who recognized in the harness peddler the man whom he had taken care of before, asked Haight where he got the harness. The old man replied that he had previously sold two horses and was now trying to dispose of the harness.

MOTHER SAVES GIRL FROM SEVERE BURNS

SAN LEANDRO, March 20.—With her dress on fire, Anna Breves, the fifteen-year-old daughter of Manuel Breves, a well known farmer, ran frantically in search of a rug to smother the flames. She is now, who is under the care of Dr. George Coleman in a critical condition.

SAN LEANDRANS AT STATE CONVENTION

East Bay Town Well Represented at Court of Honor Gathering.

SAN LEANDRO, March 20.—This city was well represented at the first state convention of the Court of Honor which met this week in the Knights of Columbus hall in San Francisco. The court carried through a heavy business program during its two day session, which included the electing of State officers and

the following delegates will go to St. Louis in June. The delegates to the convention, who came from all parts of the State, were loyally entertained during the stay in the bay cities. They were given a reception in the Hotel Oakland by Oakland Court of Honor, No. 342 and were taken to all the points of interest around the bay. An installation of officers and a banquet were also features of the convention, which met with great success.

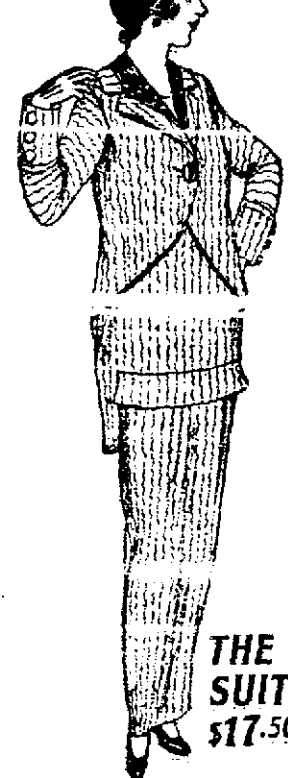

The state officers appointed were: State chancellor, Mr. C. Mitchell, of Fresno; State recorder, Miss Rene Annis, of Santa Ana; State treasurer, Arthur M. Jewitt, of Eureka; State usher, Mrs. Leona Knox, of Oakland; State sergeant, Mrs. Alice A. Madaria, of San Leandro; page, Master Sydney Greenwell, of Santa Cruz; official photographer, Miss Mary Horton of Santa Ana.

Reports submitted by the different of the court showed the Court of Honor to be in a flourishing condition in California especially in this part of the State where the membership has increased rapidly.

CAFE TRIO IN CUTTING AFFRAY

Woman and Two Men Are Held Despite Ingenious Explanation by Wounded.

SAN FRANCISCO, March 20.—Miss Marie Hart, of 1055 Octavia street, Julian Housman, a barber of 1597 Ellis street, and John Martinez, a salesman of 1457 Broadway street, were arrested at 4 o'clock this morning following a disturbance in Housman's shop resulting in the wounding of Martinez who is in a serious condition and the injury of Miss Hart.

The trouble followed an evening spent in the La Bohemia Cafe by the trio and he heard the former cry out, "Now you've done it and now you've done it."

It was at 2 o'clock this morning that Housman's barber shop at Ellis and Twenty-ninth streets. Housman says he had his back to Martinez and Miss Hart when he heard the former cry out, "Now you've done it and now you've done it."

"I went to Housman's shop to buy a razor," he explained. "I was trying to cut my arm when it slipped and cut me. Miss Hart was holding my hand and she also was cut. Patrolmen Cole, Lynch and Johnson found Martinez with a knife dripping with blood and sent him to the central Emergency Hospital at 4 p. m. Three hours later his wound started to pain him and the blood from a severed artery continued to flow and he was removed from the city prison to the hospital a second time.

All participants are being held while Detective Jackson investigates.

NOTED ARCHAEOLOGIST, BANDELLER, IS DEAD

NEW YORK, March 20.—Announcement of the death of Max D. Bandelier, yesterday of Albany Francis A. Bandelier, one of the foremost authorities on archaeology in the United States, is contained in a cable message made public today. He was seventy-four years old.

He was born in South Bay, New York, and spent his early years in examining for the historical society into the archives of the state of New York.

Bandelier engaged in investigations for the archaeological institutes of America in the southeast and in Mexico from 1880 to 1888. He went to Peru for the first time in 1892 and continued the same work for the American Museum of Natural History from 1894 to 1903 in Bolivia. His books on archaeological subjects are considered standard works.

The representatives of the British and continental steamship companies decided to adjourn until May 1, which they will meet again in Cologne.

Recommend Chamberlain's Cough Remedy.

"I take pleasure in recommending Chamberlain's Cough Remedy to my customers because I have confidence in it. I find that they are pleased with it and call for it when again in need of such a medicine," writes J. W. Saxon, Monte Carlo, Mo. For sale by Osgood Bros. Drug Stores.

MAYOR TO SPEAK OF WONDER-WOMAN

Helen Keller to Appear Before Oakland Audience This Afternoon at Ye Liberty.

The appearance of Miss Helen Keller this afternoon at 4 o'clock at Ye Liberty Playhouse, is attracting much interest in both social and educational circles, and indications point to a capacity audience at the theater. The lecture is under the auspices of the Associated Charities and is preceded by a half hour of music furnished by the Oakland high school orchestra.

Mayor Mott will preside at the meeting and introduce the wonder-woman. In his introductory speech, the mayor will say:

"We have been brought together this afternoon to give and to receive. The motive of this meeting is philanthropic and I do not hesitate to say that the Associated Charities of Oakland, patron of this lecture, is well worthy of our contributions. An intimate official knowl-

with many of its active officers are convinced that the organization's sterling value as a most important factor in Oakland's social service program. It is a very great pleasure to have a part in anything that may help toward sustaining this association—this clearing house of Oakland's many efficient philanthropic societies.

GIVE AND RECEIVE.

"I have said we are here to give and to receive. Perhaps it were better to have prefaced this address with a reversal of the phrase. We are here to receive from the life of one of whom the whole civilized world has known, a remarkable story—a story so replete with episode and incident of indomitable purpose and determination to conquer what had seemed to be the unconquerable that its impress has been indelibly left upon the record of the human race.

"The hour has been given the greatly appreciated honor this afternoon of presenting to you one of those two persons, who, Mark Twain said, were the most interesting characters of the nineteenth century. The one who is with us comes to you heralded as few of her sex were ever heralded to the American people. The other with whom the great American author linked her in his comment was Napoleon.

OVERCOME OBSTACLES.

"Contemplate the two and perhaps the thought will occur to you as it has to me—is not the living woman greater than the mighty soldier? She has won over who should have been hopeless, under all the rules. In earliest infancy this wonderful woman lost physical sight, hearing and speech. Under this terrifying handicap, she fought until in the years of her struggles she gained an education of rare quality, developed mental gifts of rare refinement and beauty, cultivated under almost super-natural conditions a character so winning and so womanly, so wonderfully feminine that she has a place in the hearts of the American people, which will never be effaced. Her patience, her devotion, her courage, her perseverance, her determination to conquer hold our attention. It has been strongly said that 'her life has been a series of attempts to do whatever other people do and to do it well.'

MIND OBSERVES.

"We bow in admiration before this woman who, though physically sightless, sees so clearly through the mists of the mind. We speak in amazement of her victorious struggle to win back speech. We applaud as we learn of innumerable obstacles surmounted in her task to acquire knowledge. Science has marveled at this woman. Well may it wonder for science cannot entirely answer the questions, how did she conquer?

"The lessons of her life struggles are obvious. This meeting would be futile unless we should get that lesson now so impressively and vividly before us. We have very great pleasure in presenting to you one who has by her marvelous career shown all of us how we should live, how we should fight, how we should meet our own problems—so small as they measure against hers.

SECRETARY REDFIELD MAY VISIT OAKLAND

Secretary of Commerce William C. Redfield, who will be the speaker at the commencement exercises of the University of California Monday, will be the guest of Oakland business men if the plans of the Chamber of Commerce are successful. The chamber officials have written the secretary inviting him to a business men's noon luncheon to be held at the Hotel Oakland at any date convenient to the official during his stay here. An answer is expected by tomorrow and this will decide whether or not the affair will be given.

TRANSPORTING EXPLOSIVES.

The handling of high explosives in transit will be the topic of a lecture to be delivered Saturday night before the local employees of the Wells-Fargo Express Company. The meeting will take place at the Chamber of Commerce auditorium and an expert from a local powder plant will be invited to speak. The lecture is in line with the "safety first" move inaugurated by the big corporations of the country.

PROGRESSIVES FOR FREE CANAL TOLLS

Victor Murdock Declares Party Is Against Wilson and Exemption.

WASHINGTON, March 20.—Representative Victor Murdock of Kansas, leader of the Progressives in the House in a statement issued today, announced that the Progressives in Congress are substantially a unit against President Wilson's plan of repealing the exemption of coastwise shipping from Panama Canal tolls. He added:

"Both Democrats and Republicans are hopelessly divided. A little over one year ago all three parties covenanted with the people to exempt coastwise traffic. Today the Republicans and Democrats as parties are breaking their pledge. The Progressive party, free from the influence of sectional or selfish interest, but actuated by principle and united by mutual conviction, is standing by the compact it made with the people.

"Thirteen million voters in 1912 charged the American Congress to carry out their will in this matter.

CLAIM CHILDREN HAVE NO RIGHT TO ESTATE

SAN FRANCISCO, March 20.—Arthur Wolf, of 888 Pine street, and Miss Maria Wolf, of Guatemala City, filed an application at the county clerk's office today for special letters of administration in the estate of their grandmother, Mrs. Tobe Funkenstein. They claim that the children of the decedent, who died June 25, 1913, have no legal right to the property, which was valued at \$300,000, as they failed to make application within nine months of the death of their mother.

On the other hand Edward Funkenstein, Charles F. Gall, Sarah Funkenstein and Rebecca Gall assert that the Wolfs have no right to the property, which consists largely of local real estate.

DOOR SLAMS, MAN IS KNOCKED DOWNSTAIRS

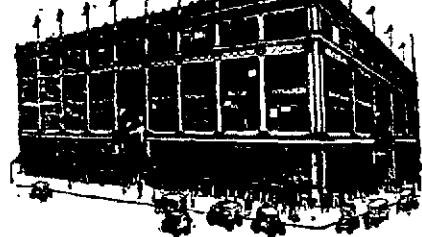

When the wind slammed a door against him, J. Mulvenhill, 579 Sixty-first street, was knocked down stairs and sustained a broken collar bone, three fractured ribs and a broken shoulder bone. He was treated at the Emergency Hospital by Dr. Reine and Dr. Dowdle.

Good of 939 Webster street, arrested yesterday in connection with the operation of a marriage bureau known as "The Less Lonely Club," appeared before Police Judge Shortall today. She was charged with obtaining money under false pretenses by Mrs. Kathryn Elsenhart, a woman protective officer. The case was continued until next Wednesday.

ORDAINED PRIEST BY ADVENTISTS

R. S. Fries of Oakland Receives Full Rites at Pacific Coast Conference.

The conference of the Pacific Coast department of the Seventh day Adventists interrupted its studies and routine business last night long enough to ordain one of their evangelists into the priesthood of their faith. R. S. Fries of this city, ex-soldier of the Spanish-American war, and successful evangelist, was the man receiving the full rites of the church. The ordination prayer was offered by Pastor L. H. Evans, president of the North American Conference.

Following the ordination ceremony, the subject of the effect and power of prayer was taken up. Many instances of instant relief and cure from disease and habits given.

EFFICIENCY OF PRAYER.
Pastor Evans spoke with emphasis in his study on "Prayer," declaring that

straight from the throne of God if they ever expect to finish the gospel work in this generation. He urged the brethren to make the study of the Bible a part of their daily endeavor, and also plead with them to get on their knees more frequently and commune with God. He declared that the preacher who neglects prayer, and the study of the Bible does so at his own peril. He spoke of men apostatizing from the gospel, and declared it was his own opinion that they did so because of a lack of piety. He said such men were brought to their apostasy by a failure to pray, and study, and that the decision was made after they had contemplated a long time. "We have got to have the power of God, or we can never finish the work committed to us," he said.

FAITH OVERCOMING OPIUM.

Illustrating the possibility of getting rid of sin at once by telling of opium fiends in China giving up their habits of long standing immediately after prayer had been offered in their behalf. He urged a large audience to claim the promises of God, and prepare themselves for the power of God to save the Chinese. He declared that an opium fiend in fact is about the end of humanity, and said that he has seen men who have been victims of this awful habit for years relinquish it instantly upon their accepting the faith in God.

Consideration has been given to a location for the approaching in the California Coast conference, which has headquarters in Oakland. Although not yet definitely decided, many favor East Oakland, and the suggestive date of June 16 to 23 has been made.

Other sessions of the conference were held throughout the state during the summer, by a corps of student ministers. Already plans are being laid for the southern part of the state and from field reports, the quantity of work in that section has been deemed inadequate and plans are being considered to divide the south, holding an overflow meeting in San Diego.

Old People Need A Bowel Stimulant

The Ideal One is a Mild Laxative - Tonic That Will Keep the Bowels Gently Active.

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating easily digested foods and by plenty of exercise, but this is often impossible in the case of the elderly. One thing is certain, that a state of constipation should always be avoided, as it is dangerous to life and health. The best plan is to take a mild laxative as often as is deemed necessary. But with equal certainty it is suggested that

MRS. MARY A. P. DAVIDSON

her sedentary habits had continual bowel trouble. From the day she began taking Dr. Caldwell's Syrup Pepsin she has had no further trouble. She is now as healthy as a young girl.

A bottle can be bought of any drugist at fifty cents or one dollar. People usually buy the fifty-cent size first, and then, having convinced themselves of its merits, they buy the dollar size, which is more economical. Results are always guaranteed or money will be refunded. Elderly persons of both sexes can follow these suggestions with every assurance of good results.

Sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., North St., in a postal card with your name and address on it will do.

DEFENDS MEXICAN POLICY OF U. S.

Senator Robinson on Bryan's Birthday Deplores Talk of Intervention.

LINCOLN, Neb., March 10.—Defending the administration's Mexican policy, declaring Secretary Bryan was the originator of "watchful waiting," and predicting that the people will soon rejoice over the warning against "war and desolation" that would follow intervention in Mexico, Senator Joe T. Robinson, Democrat of Arkansas, addressed friends and neighbors of Bryan at a dinner last night to celebrate the fifty-fourth birthday of the secretary's birth.

Senator Robinson recited the history of "ill-fated" Mexico from the days of Maximilian, asserting that conditions today are worse than ever and that Mexico has continually declined through upheavals.

Huerta at the head of the assumed government and Carranza and Villa attempting to seize supreme power in Mexico. "Maximilian was benevolent," Madero was generous, Huerta is malignant and cruel, and Carranza is self-serving. Madero was patriotic, Huerta is cruel and avaricious. His character is exemplified in his declaration: "It costs thirty-five cents to buy enough rope to hang a rebel."

VILLA REAL REBEL LEADER. The vital, dominating leader of the rebel armies is Villa; not Carranza, Carranza is like Madero. Villa is not like Madero. His capacity and aggressiveness have made him the master and terror of northern Mexico. Villa recognizes neither law nor custom. His most striking characteristic is vindictiveness coupled with a marked capacity for military leadership. It is illustrated by his now famous toast: "I hope to live to eat the heart that will fall from the neck of the man who will grow on the graves of all my enemies."

WRATH UNLIMITED. Senator Robinson predicted that the cause of the constitutionalists would be retarded, if not defeated, "by its lawless leadership which seems to recognize no limitation upon its own wrath." "The 'p. o. o.' government" is justified by conditions in Mexico," Senator Robinson continued. "The spirit of impatience which has prompted some to advocate armed intervention must be restrained. Our experience in the Philippines and the whole history of Mexico warn us against hasty or inconsiderate action. Intervention means a long period of occupation. It means certain the sacrifice of thousands of lives. It would array all Mexico against the United States and in all the factors there against our armies."

FEARS INTERVENTION. "Let those who criticize the policy of 'watchful waiting' anticipate the results of armed intervention. Let them realize the many, turbulent years of strife that must follow the blood that must inevitably flow; the homes that must be desolated; the plantations of hopelessness of the problem of bringing order out of chaos and of establishing a stable government in Mexico as an enterprise unfamiliar to her people."

Called "REMARKABLE MAN." "We now celebrate the birthday of one who is, in many respects, the most remarkable man of our times. During the last twenty years, Bryan has been the leader of political thought in the United States. He has stood for peace, peace at home, peace with all the world. He has sought to raise the standards of diplomacy. 'Grande jure diplomacy' and the 'battleship' friendship have been the slogan of those who would mock him. Modest, scholarly and universal peace have been his aims."

Who is foremost in promoting world-wide peace? God grant that in time our 'watchful waiting' may be rewarded; that peace and liberty may come to Mexico. If no other way can be found, if in the end our armies must invade Mexico, who will asperse the great Commoner for raising his voice in warning against the war and desolation, the loss and grief which must result? What freedom will not be bought? What home will not be secured by his admonition: what victory will be made less glorious and triumphant by his course?"

FICKERT PASSENGER IN AEROPLANE TRIP. SAN FRANCISCO, March 20.—District Attorney Charles M. Fickert soared over the Golden Gate in an aeroplane Wednesday, attained the honor of being the first public official of San Francisco ever to fly, and won \$500.

Fickert's flight was the result of a dare passed to him by Isador Goldman, a member of the grand jury, with whom he was visiting the exposition grounds. When they espied Silar Christofferson at his home, Fickert and Goldman bet him \$50 that he would be afraid. But the district attorney was brave and accompanied the aviator for half an hour over the fair grounds and the ocean, winning the grand juror's coin.

GREENWICH, Conn., March 20.—Believing that she had consumed and would be the burden to her husband, Mrs. William Anthony, wife of a contractor, drowned her small son and daughter in a bathtub and then swallowed poison.

When Anthony returned to his home in Brookridge last night he found the wife sprawling in a pool of blood in the bedroom. She was rushed to a hospital, where it is believed she will recover. A three-months-old baby was found sleeping in its crib. A warrant has been issued for the mother's arrest.

WANTS HEAVY DAMAGES FOR LOSS OF BEARD

WASHINGTON, March 20.—What is the value of a beard? That is the question which the justices of the Supreme Court have been asked to determine.

In case in point is that of E. A. Lott, a prominent Louisiana lawyer, who placed a value of \$25,000 on a growth of his beard.

Lott, who formerly was city attorney of New Orleans, claims that a number of years ago he was seized by a mob during a riot and his beard was cut off. He has since then worn a wig and has been unable to find a beard that will grow again.

WANTS OAKLAND TO BE DELEGATE CITY

James A. Barr Would Have City Make Effort to Become Better Advertised.

Major Barr has received the following communications from James A. Barr, manager of the Bureau of Conventions and Societies of the Panama-Pacific International Exposition and Indiana:

"Interest which is being taken in securing conventions and suggest to the city of Oakland to make a bid for the 1915 convention of the American Medical Association."

"Hon. Frank K. Mott, Mayor of Oakland, Oakland, California—My Dear Mr. Mott: You will be interested in knowing that Cincinnati, Ohio, is raising a convention fund of \$10,000, the greater part of which will be used in establishing a bureau to secure conventions meeting in or near San Francisco next year. I think this shows very clearly the value of your great city to the world from conventions. As I have said to you before, I believe that now is the accepted time in making Oakland a great convention city. In about two weeks I will inaugurate a special campaign with some sixty or seventy conventions that will meet in the month of June. If Oakland is to be a great city, it should be interested in knowing that Atlanta, Ga., will establish a Bureau in the city during the early part of the Exposition period to have charge of the meeting in San Francisco and Oakland in 1915. Atlanta will raise a very large sum of money for this purpose. This again, indicates how large cities look after the convention work. I believe that the plans of your commercial bodies are worthy of your earnest support."

"Besides the 230 conventions already secured for 1915, I am in active correspondence, and in many cases in person, with the officials of additional conventions. I happen to know the exact number as my secretary counted all of the files last Saturday. If Oakland is to have any comprehensive plans in regard to securing a lot of these conventions, may I not suggest they should be formulated at an early date in this matter? I am always at your service."

"Very sincerely yours,"

"(Signed) JAS. A. BARR, 'Manager'."

COLLEGE LOSS HEAVY; DAMAGES ARE LARGE

BOSTON, March 20.—The immediate future of Wellesley College is in doubt as a result of the financial loss sustained in the fire which last Tuesday destroyed College Hall, the main building of the institution. The executive committee has discovered that the estimated loss of \$500,000 was based on assessor's valuation of greatly depreciated property, and that the insurance obtainable represented only about one-fourth of the probable cost of restoration.

FIRE FOLLOWS COLLAPSE OF BUILDING; LIVES LOST

PHILADELPHIA, March 20.—Two dwellings in the downtown negro section collapsed last night, burying nine negroes in the ruins. Five of them are believed to have been killed. The other four escaped with slight injuries. Shortly after the collapse the ruins caught fire. Two unidentified bodies, a man and a woman, were recovered before the fire started.

FARMERS SUE TO CLEAR THEIR LAND

Action Caused by Failure of Irrigation Plant That Encumbered Properties.

HUTCHINSON, Kan., March 20.—Suit was filed yesterday on behalf of 110 farmers against the United States for \$370,000. The action is the result of the failure of a government irrigation plant at Deerfield. The government holds a lien against the farmers for the amount named in the petition and the owners want their land cleared of encumbrances. Congress has twice refused to relieve the men of their debt. Secretary of the Interior Lane made a party to the suit.

The irrigation plant was guaranteed to furnish two acre-feet of water per year. The first year it furnished one foot of water, the next year half that amount, and the third year the plant shut down. The farmers had agreed to pay the cost of the station and the amount sued for corresponds to the sum still coming to the government. The plant now is said to be useless.

BIG STOCK PLUNGE IS SHOWN IN LAWSUIT

NEW YORK, March 20.—John G. A. Leishman, former American ambassador to Germany, has filed a lawsuit for \$75,139.90 brought against J. P. Morgan & Co., stock brokers, and a default judgment for the full amount was filed yesterday. The papers showed that Leishman dealt in stocks to the extent of \$1,346,529 in one period of thirty days. The suit was for the balance due on that month's transactions.

It was also shown Leishman used information concerning foreign affairs obtained while he was ambassador in carrying on his transactions.

The skin trouble started as a rash. It was red and raw and sometimes it was covered with little yellow spots."

PRINTING COSTLY FOR THE ELECTION

\$150,000 Will Be the Cost of Pamphlet Telling of Amendments.

SACRAMENTO, March 20.—The printing and distribution of the pamphlet containing the constitutional amendments, initiative and referendum measures and the bonding propositions on which California citizens will vote in November will cost approximately \$150,000, according to estimates announced here yesterday.

The printing bill will approximate \$75,000 according to State Printer Richardson, the postage bill to county clerks upon whom will devolve the duty of mailing to each registered elector a pamphlet, will be \$48,000. Freight and postage the state must pay to distribute in bulk the pamphlets will total \$20,000. Incidental expenses estimated at \$5000 completes the estimated cost.

Under the law it is estimated that 1,500,000 copies of the pamphlet must be printed. The pamphlet will contain 160 pages in small type, five times as large as the one issued in 1912. Following are some interesting figures in Richardson's estimate on printing:

One million pounds, or 30 carloads of paper.

One ton of ink.

Two hundred and eighty-eight days of twenty-four hours each on one press for press work.

One hundred and fifty days of twenty-four hours each for one quadruple folder (Composition work not yet estimated).

Labor approximately, \$75,000, stock to be used \$40,000.

The 1913 legislature appropriated \$10,000 to pay for the cost of printing the pamphlets.

GERMANY AIMS TO CONTROL BETTORS

Bill Introduced to Legalize Betting on Horse Races; Licensed Bookmaker.

BERLIN, March 20.—The German government's measure legalizing betting on horse races through licensed bookmakers was published here today. The bill aims at combatting hand books and other illicit forms of betting, which have flourished under the existing law restricting betting to the official highly taxed pari-mutuels. The measure also is intended to discourage betting among the lower and middle classes and to prevent the government's revenues by taxing the immense sums now illegally wagered.

The percentage to be taken by the government and the race track owners from the takings of the pari-mutuels is reduced by the new measure from 16 to 12 per cent in order to popularize machine betting while money bets through bookmakers is to be subjected to a general tax of six per cent. Winners, moreover, are to be further taxed on a graduated scale ranging from 5 to 20 per cent, according to odds.

POLICEWOMEN TRAP ALLEGED OFFENDERS

SAN FRANCISCO, March 20.—Mrs. Kathryn C. Eisenhart, woman protective officer, had a busy day yesterday. It began by gathering evidence against a drug store man for selling cocaine and ended with the arrest of Mrs. Mary G. Good, a marriage bureau agent, on a charge of obtaining \$1 under false pretenses.

Yesterday Mrs. Eisenhart helped to catch a man who was charged with abandonment and neglect.

Mrs. Good lives at 939 Webster street. She had been advertising for women and men who wished to be married. She was doing a big business. Put neighbors complained. Capt. was cutting up too much, they said, and keeping hours that were too late.

Out went Mrs. Eisenhart. She took with her Mrs. Gladys Rantz. They said they were widows and wished to make a good marriage, having made two that were failures.

SAVE YOUR HAIR! IF FALLING OUT OR DANDRUFF--25 CENT DANDERINE

Ladies! Men! Here's the Quick-Cure Known.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scour!

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp which, if not remedied, causes the hair roots to shrink, loosen and die. Then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.

=We Are Proud of Our Friends=We Pity Our Enemies=

Entrance
on
Twelfth
Street

We have built up a business of over a million dollars a year in less than five years' time. We started out with a capital of only \$310. This is history without a parallel, but we are not nearly so proud of that accomplishment as we are of our card index of over 100,000 names of friends, admirers, customers and boosters. Every time a man walks into our store—which happens more than a score of times daily—and brings with him a friend whom he advises to buy his Suits and Overcoats here, our hearts fill with gladness.

But just as we would think very little of a man who could make no friends we must acknowledge a man must be poor quality if he can make no enemies. We have made probably a dozen enemies in the five years we have been in business. We pity them, for such rancor as theirs is the infallible result of envy, and we always pity an envious man.

The life of leaders should be an example and should not be cause for envy. The principles of great merchants have from time immemorial been considered a good school for others to follow. There are no secrets, there are no riddles or questions about the Foreman & Clark principles. We have published them time and again: "Giving the public the utmost for its dollars in both value and service, shaded by the least possible necessary expense. That is our creed. That is the key to our success, and we give it freely to friends and enemies alike."

Only Foreman & Clark Principles Can Build a Success Like Ours

It isn't our advertising. It isn't our salesmanship. It isn't our low rent. It isn't even the personal attention we give each customer, that has built up the Foreman & Clark Success. It is all of these combined and bound together by an absolute determination that each and every customer must go away with a maximum feeling of satisfaction. That has built up the Foreman & Clark success. No success like ours has ever been built up before and we are determined to stay in the lead.

Our Success Enables Us to Sell You ALWAYS \$25.00 Suits and Overcoats at \$15

If our store was located on the street level and we had to pay high rents and pay for fancy window trims and elaborate fixtures we couldn't do it. If the members of the firm were not personally active and giving each detail their personal supervision we couldn't do it. If we were not selling about 7000 Suits per month all at one price we couldn't do it. If the expense of getting our business was not materially reduced through the recommendation of former customers we couldn't do it; and so it is only the fact that we have succeeded in pleasing so many before you that makes it possible for us to give you this maximum of value and service combined.

SARATOGA READY FOR CELEBRATION

Low Rates Granted by Railroads and Crowds Expected at Blossom Festival.

SAN JOSE, March 20.—Low round-trip fares have been granted for the Saratoga blossom festival. The greater portion of the crowd from the bay cities will travel via the Southern Pacific to Palo Alto, where they will take the Peninsula electric train direct to Saratoga. Others will take the electric train from San Jose.

The Stanford University band of 22 pieces will greet the excursionists at the Saratoga station at 2 a. m. At 10 o'clock there will be athletic competitions.

All of the churches of the little town have delegated their entire congregation to dispense "refreshments" during the noon hour. The festival will start at 1:30 o'clock. The literary exercises will be held at 2 p. m.

A feature of the day will be the placing of automobiles and farm carriages in the disposal of city streets, which will be carried to various points of interest in the hills where good views of the blossom landscape may be obtained.

GUGGENHEIMS MAY BE BEHIND STEAMER DEAL

SAN FRANCISCO, March 20.—San Francisco's financial community yesterday was vibrant with interest over the report that the Northern Navigation Company and its \$2,000,000 of holdings in steamships, barges and terminals on the Yukon river, had been sold to the White Pass & Yukon Route, one of the big Alaska corporations in which the Guggenheims are interested.

Edward Byrns, Refugee From Mexico, Loses Mind and Startles Vallejo.

VALLEJO, March 20.—Edward Byrns, a young man who came to this city yesterday from San Francisco and secured a room at the Streichen House, went violently insane at that place about 2:30 o'clock this morning and was captured by the police after an exciting chase through the business district. Shortly after 2:30 o'clock this morning the officers on duty in the downtown section were surprised to see a man running up the street yelling at the top of his voice "The Mexican army is after me, the Mexican army is after me, the Mexican army is after me."

Byrns was placed under arrest, being charged that he was suffering from over indulgence in liquor. However, this morning he is violently insane and is raving in his cell at the city prison.

Byrns will be sent to Fairfield this afternoon for examination at the hands of the Lunacy Commission and it is expected that he will be committed to Napa State Hospital.

MARE ISLAND NOTES

MARE ISLAND, March 20.—Superintendent M. H. Peck of the North American Dredging Company announced this morning that he expected the new rock drilling apparatus which will be used by his dredger in the removal of Commission Rock from the channel, to arrive before the day is over. The Marine guard of fifty-five men were transferred from the receiving ship Cleveland to the old guard independence today. One reason for the transfer of the men is due to the overcrowding of the receiving ship. It is expected that the Marines will remain on the independence until after the St. Louis comes here as guard.

The defense scored a big victory yesterday during the court martial of Assistant Paymaster Russell V. D. W. Jackson, U. S. N., former paymaster of the U. S. S. Yorktown, when the court ruled that so far the Judge Advocate had failed to prove worse any crime had been committed by the accused.

TRANSATLANTIC SKY SHIPS SOON

Rear-Admiral Robert E. Peary Says U. S. Will Have Them in Five Years.

NEW YORK, March 20.—Aviators of note and men of prominence in other activities sat side by side last night at the great annual dinner of the Aero Club of America and heard speakers tell of the progress made in the science of navigating the air and predicting even more remarkable developments.

Rear Admiral Robert E. Peary was one of the speakers who dwelt optimistically upon the future development of aviation. His past record had convinced him, he said, that within five years trans-Atlantic and circumterrestrial flights would be possible. He did not discount, however, the fact that it would be encountered in this, and declared that in order for a flight to the North Pole, a machine would have to travel 1000 miles without a stop.

Alan R. Hawley, the president of the club read a telegram from Orville Wright in which the aviator predicted a great year for the sport. Mr. Hawley presented to Ralph H. Upson a gold medal for a victory in the international balloon race last year and the aviation medal of merit to E. A. D. Preston, aide to Mr. Upson in the contest. J. B. R. Verplanck also received a medal for winning the flying boat cruise from Chicago to Buffalo by way of the Great Lakes.

TETRAZZINI SPONSOR FOR LITTLE GIRL

SAN FRANCISCO, March 20.—By all the good omens of Italian lore, little Julia Tetrazzini has begun life under auspicious circumstances. She has been christened by a great singer. Her god-mother is Mme. Luisa Tetrazzini, who would rather sing in the streets of San Francisco than under a contract with Oscar Hammerstein.

Julia Luisa Sesanna is the 3-days-old daughter of Mr. and Mrs. Oreste Sesanna. Oreste is a waiter at the Fairmont Hotel, and during the last few years of Mme. Tetrazzini he has attended her table in the main dining salon.

Yesterday the singer was informed that the waiter had honored her in naming his daughter. She sent him word that she would like to do the full part of god-mother and have the christening ceremony performed in her apartment at the Fairmont. Oreste tremblingly placed the new wife in the singer's arms, and a priest, when the diva had summoned, pronounced the name of another Luisa.

TRAIN HITS AUTO; 2 WOMEN INJURED

Mother and Daughter Have Narrow Escape From Death

Mrs. Eugene J. Murphy, 1232 Fourth avenue, narrowly escaped death early this morning when she drove her automobile into a Key Route Claremont electric train at Fifty-fifth and Dover streets, wrecking the machine and sustaining severe injuries herself. In the automobile with Mrs. Murphy was her daughter, Ivy A. Murphy, a young society woman of Oakland. Both women are at their home under the care of Dr. Charles Rowe.

As Mrs. Murphy approached Fifty-fifth street she realized that the Key Route, which was going toward Claremont, would undoubtedly strike the automobile. With rare presence of mind she threw the automobile into the east and so placing the automobile that the train struck it a glancing blow with the last car, causing it to careen toward the gutter. The automobile was a total wreck.

Mrs. Murphy and her daughter were badly shaken up and were cut by flying glass from the wind shield. They were removed to their home. Mrs. Murphy's husband is a traveling salesman.

P.O. ADDITION NOW PUT BEFORE HOUSE

Knowland's Fight for Oakland May Result in Appropriation

Another step toward Oakland's post-office addition, for which Congressman Joseph R. Knowland has been fighting for two years, was accomplished yesterday, according to news received by local commercial organizations, when Secretary Meadood sent to the House estimates of \$115,000 for additional land adjoining the present building, this to be used in the addition as planned by the Government. The estimate will be included in the sundry civil appropriation bill, and will provide a strip of land behind the present office. The building will be extended to practically twice its size on this land and room will be made in the new structure for a custom house branch as well.

The news was received yesterday in the postoffice with rejoicing, the present building being the outcome of the city's fight for a new postoffice.

performed by Postmaster Paul Schafer and his assistants in doing their work in the present crowded quarters, and it was after this condition was made known to him that Congressman Knowland started the fight which has resulted in yesterday's addition to the appropriation bill. It is declared in advance from Washington that Secretary Meadood's action practically means the purchase of the land.

In the meantime Congressman Knowland is working to have the building rushed. In co-operation with the Commercial Club and Chamber of Commerce he has urged the utmost speed to the architectural department, and has been promised all possible haste in getting the plans ready. The building will be started as soon as the preliminary detail can be rushed through.

ONE THOUSAND LOTS TO BE SOLD THIS YEAR—BIG JOB AHEAD

Along Grand Ave. Boulevard, Where Realty Syndicate Co. Have Reduced Prices to Force Sales.

Realty Syndicate Will Attempt to Sell Off All Its Scattered Lots During 1914—Have Cut Prices to Accomplish the Task.

Every lot owned by the Realty Syndicate along Grand avenue has been reduced in price to effect an immediate sale. All of these lots that required regrading have been regraded, and sidewalks are now being placed in front of them. The result of this action on the part of the Realty Syndicate Company has been a number of sales in this vicinity.

"It is necessary that we adopt some scattered lots," said the manager of the Real Estate Dept. of the Syndicate this morning. "We have on hand in various parts of Oakland upwards of a thousand single lots which we are desirous of selling before 1915, at which time we expect to put on our larger subdivisions. We believe by cutting our prices that these scattered lots can be disposed of and as a test of our plan we are trying out our Grand Avenue Heights holdings, which are among the finest properties

of this character owned by this corporation. "Grand avenue has seen some remarkable increases in value during the past few years, and we look upon it as a thoroughfare which will see even greater advances in the years to come. We cannot wait, however, any longer, as we must turn our properties into cash and interest bearing securities. This is why we have adopted the aggressive measures of price reduction."

The Realty Syndicate Company states that their proposition is to construct a number of new houses will be constructed in this vicinity during the coming summer as a result of this sale. The property can be seen by taking the Grand avenue cars and getting off at the end of the line, just past Grand Avenue Heights.

Further information can be obtained at the offices of the Realty Syndicate Company, 1444 Broadway.

FLEES INFIRMARY: ARRESTED FOR THEFT

With an apparent mania for steamships, Edward Haught, alias Jack Welsh, who was sent to the county infirmary from the county jail last Tuesday, hobbled away from the institution yesterday and went to San Leandro, where he was arrested by Constable Manuel Borges for theft. Prosecution on a former charge was held in abeyance by the authorities owing to the crippled condition of the defendant. He is now back in the county jail. It is believed that he is mentally unbalanced.

MRS. E. W. RISKY DIES. Word was received today of the death of Mrs. E. W. Risky, wife of Judge Risky of Fresno, in that city, by her son, Thomas E. Risky, engineer in charge of the harbor department in the commission of public works of Oakland. Mrs. Risky had been ill for some time, death being caused by shock from an operation.

Autohogs Make It Hard for Careful Folks.

Alameda will soon have in force an ordinance which forbids an automobile to pass a street car that has stopped to take on or let off passengers. Under the terms of the Alameda ordinance, the automobile must come to a halt not less than ten feet behind the car. This, like every other ordinance controlling automobile traffic, has been brought about by the criminal carelessness and selfish hoggishness of a comparatively few drivers.

The natural way of dealing with automobile traffic would be to leave the vehicles free to use the public streets under very few restrictions, and punish with severe sentences of imprisonment any driver who misused this freedom carelessly to injure or kill pedestrians. But since it is impossible to find police magistrates and juries who will do their duty in every case, this remedy fails, and all automobile drivers have to submit to vexatious regulations, simply because a few are so mean and so cruelly selfish, regardless of the safety of other folks.

If the automobile dealers and associations themselves would use their influence in every single case of this kind to have the offender severely punished, whether he has money or not, the automobile hog who is always tender enough of his own precious person, would largely discontinue his practices. But the truth is that men who ought to know better will go out of their way to assist in the escape of just such auto hogs because they are or may be customers.

Of course, with each new legal restraint put upon drivers, the possible sale of automobiles is just that much decreased. And where the trade saves the custom of one hog, it loses the custom of many persons who would be buyers and users of pleasure cars if it were not for the legal annoyances and the road dangers brought about by the auto hogs.

We think it would be a fine thing for the public and for the automobile trade if representative manufacturers and sales agents and influential automobile associations would agree upon uniform traffic regulations, fair to all, unite their efforts to have these uniform regulations adopted all over the country, and then, themselves, vigorously prosecute to conviction every driver, rich or poor, who broke the regulations.

Unless the auto hog is restrained by the automobile users who are not hogs, the time will come when all pleasure in driving will be taken away by more and more drastic ordinances. It is useless to appeal to the manhood of the auto hog, because he has neither manliness, decency nor anything else human in his make-up. He is just plain hog, mentally and morally, and mighty poor hog at that.

He must be dealt with as hogs deserve to be dealt with, or else the thousands of careful, considerate and kindly men and women who drive automobiles must continue to suffer more and more annoyance until automobiling ceases to be a pleasure. And that would be a bad day for the trade.

Congratulations Are in Order.

The Board of Directors of the Panama-Pacific Exposition has re-elected all the present officers. Nothing else was to have been expected, but it is pleasant to be able to record the fact that at the end of their terms the men in charge of the great work have all proved themselves so fit for the task.

Most persons have no conception of the immense work that has been done by the officers of the exposition. Theirs has been a tremendous task, taxing body and brain to the limit. And not a man has grumbled his best.

THE TRIBUNE extends to President Moore and his fellow officers the heartiest congratulations and felicitations upon the splendid results of their loyal, zealous and unremitting toil upon the greatest exposition the world has ever seen.

Hard Words Are Not Argument.

Senator Jones of Washington, in opening the canal tolls controversy, denounced the President as cowardly, cringing and craven. Probably Jones thinks this is the way to argue a great national question. But it is not.

Those of us who are opposed to the repeal of free tolls for American coasting vessels believe we are right and think we are able to give weighty reasons for the faith that is in us. And insulting epithets heaped upon the President of the United States do not help our argument. There is no sense in such talk.

We should resent this kind of language were it directed at any President—President Roosevelt, President Taft or President Wilson. For whoever sits in the chair of the President is no longer a private individual, but represents the dignity and the majesty of the Republic, and should receive at least the courtesy and the respect which gentlemen show to one another in private intercourse.

We think the President mistaken in asking for the repeal of the free tolls. Yet we do not doubt that his motives are patriotic and his beliefs as honest as our own. A man is not necessarily a porch-climber and a burglar because he does not see public questions as we see them—not in our dictionary, at any rate.

There is altogether too much of this abuse of public men. It is a cowardly thing, in the first place, because the public man cannot defend himself as the private individual can. And it is an unpatriotic thing, because it tends to bring our government and our institutions into contempt with foreign peoples.

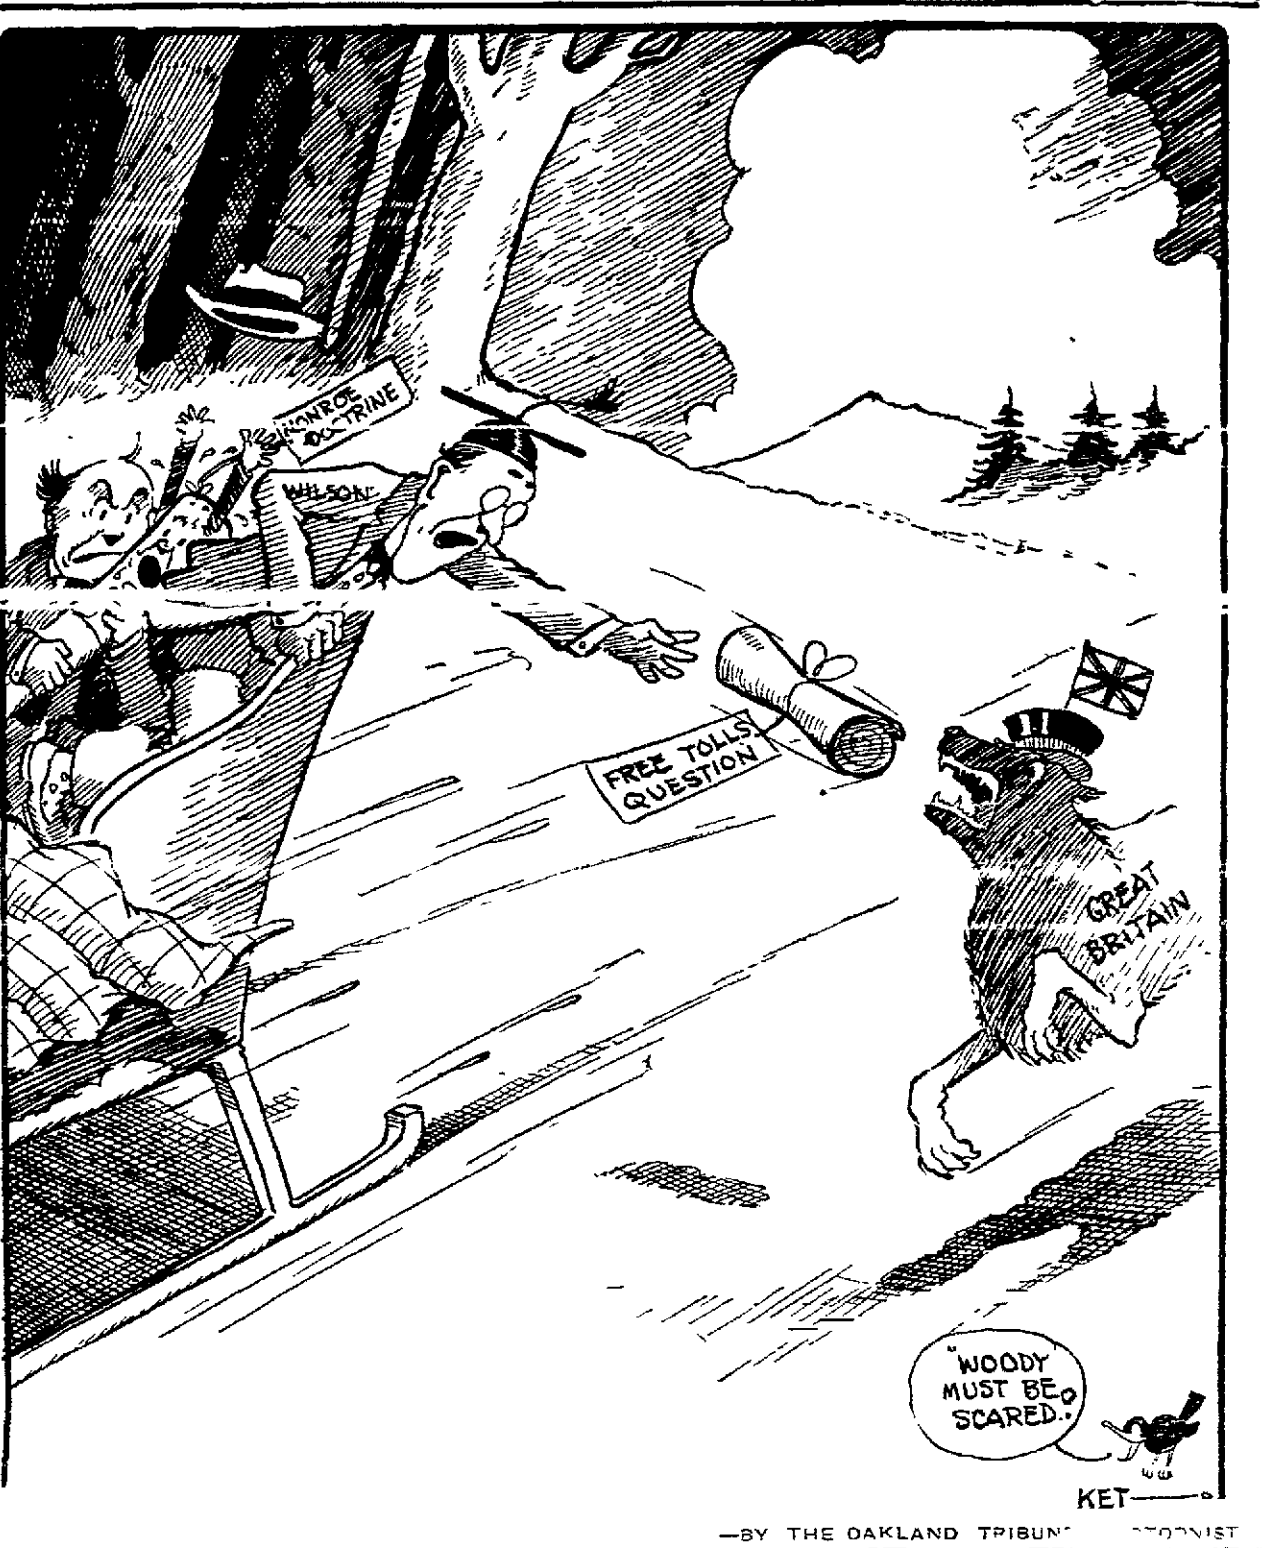

We believe that American coastwise ships should be exempt from tolls because that is a trade advantage which will increase the wealth and commerce of the American people.

We believe that this advantage fairly belongs to us, because it was American brains and American money which constructed the canal.

We believe that the British interpretation of the "no favors" clause in the Hay-Pauncefote treaty is not justified by the words themselves. And we think that this interpretation should be rejected.

We think that the President's commendable anxiety to maintain the peace of the world and the integrity of the Monroe doctrine led him to hold free canal tolls too cheaply and in-

—BY THE OAKLAND TRIBUNE—

duced him to incline to a bargain in which we get the worst of it. And upon these points we are ready to argue.

But it is not necessary to argue in the language of a black-guard or to asperse the character and the motives of Mr. Wilson, who is a scholar, an honest man and a kindly American gentleman in private life and the head of our nation and its representative in the eyes of the world in his official capacity.

The cause of free tolls will lose nothing by being argued earnestly, soberly and in the language which obtains among self-respecting American citizens.

Reversal Means Ignominious Surrender.

Two members of Congress have openly attacked the Wilson policy of reversal of the Panama Canal tolls bill by declaring that the administration has caused the United States to lose prestige and adopted a course that is both cowardly and hurtful. Already Congressman Joseph R. Knowland in the House has, with more moderation but none the less force, pointed to the weaknesses in the Wilson support arguments and shown that it will place the country in a most unenviable, if not dangerous, position to bow to the will of the British Minister and allow Great Britain to have a voice in the affairs of Central and South America.

If any concession such as Senator Jones of Washington intimates has been made to Sir Lionel Carden by the President there is reason for more than regret. Senator Jones says that he has information that will show that the State Department has surrendered to England right to free canal tolls in exchange for a promise to assist this country in maintaining the status of the Monroe doctrine in Mexico in event that nations other than Great Britain should attempt to discipline Mexico without the consent of the United States. England and the United States, said Jones, are to stand guard over the Monroe principles and in return our Congress is to reverse itself in the tolls matter, open the canal to English ships, combat our own merchant marine and further drive the American flag from the open seas.

No matter what might be personal views of the tolls question there are few Americans whose stomachs will not turn at such a sickening political mess. The rank and file of the people have gone on record as opposed to reversal. If a vote were to be taken tomorrow it would overwhelmingly express the wishes of the American people, and the administration's methods of sneaking out of its obligations would be given a rebuke that would not soon be forgotten. In face of this the President and Secretary of State Bryan go ahead with their political program. They are holding the lash over Congress and they will likely compel it to yield.

Old Glory has had to stand for many an insult, but few of them have been at the hands of men who are sworn to protect it.

Eight hundred quarts of confiscated whisky were dumped into the sewers at Albany, Oregon, one day this week. And General Kelly's suffering troops with nothing to drink but river water! It is the crime of the century.

ABOUT INTERESTING PEOPLE

Louis Hittman, whose paintings are attracting attention, is a young Russian who received his first training at Hull House, Chicago, and has advanced in spite of many obstacles. A child of very poor parents he became a protégé of Hull House, studied in the drawing classes there and showed such remarkable talent that at the age of 14 he obtained work in a sign painter's shop in the neighborhood. His father was out of work and for a time the boy was the sole support of the family. Then he became a student at the Fine Arts Academy.

The first year he won a scholarship entitling him to two years' free tuition. But when his school was closed by the war he had to go to work again. He has gathered enough money for the fare and arrived in Paris penniless. Lawton Parker befriended him, and Hittman's work immediately attracted attention in Paris. He exhibited at the Salon.

Cornelius C. Beckman, an Adams express rider of 1862, with headquarters at Jacksonville, Ore., has been for 51 years a bank president of that town, a record previously not equaled in banking circles in this country. He went to California in 1856. In 1859 he erected at Jacksonville the building which he has occupied ever since as a banking establishment. He cares little for politics, but has been mayor of his town and was for fifteen years a regent of the state university. In spite of his 56 years he continues to superintend personally his banking business.

The French government has just purchased for the Luxembourg gallery the original painting by Arthur Rackham of "Jack Spratt and His Wife" one of the series of Rackham pictures now running in St. Nicholas Magazine. This picture was the frontispiece of the December St. Nicholas. This is the highest honor that the French government can confer upon a painting for a living artist. Not until the artist is dead are his canvases eligible for the Louvre.

QUICKLY ENDS THE WORST BACKACHE

Makes Kidney Troubles, Bladder Disorders and Rheumatic Pains Vanish.

It is no longer necessary for any one to suffer with backache, kidney trouble, bladder disorders, rheumatic pains, or any of the many ailments which are caused by the accumulation of uric acid in the blood. It is not necessary to be tortured with rheumatic, stiff joints, and its heart-wrenching pains, for the new discovery, Croxone, quickly and surely relieves all such troubles.

Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out the most poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, and dissolves and carries away all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the last time you use it.

If you suffer with pains in your back, and sides, or have any signs of kidney, bladder trouble, or rheumatism, such as puffy swellings under the eyes or, in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

POLICE ASKED TO PROTECT COUNT

Challenge to Duel Sent Through Mails to San Jose Man.

NEW ORLEANS, March 20.—A challenge to a duel sent through the United States mails by Captain J. N. Nyholm, a retired officer of the Danish army, to Count Virgo Knuth, a Danish nobleman, resulted in Count Knuth appealing to the police for protection. Detectives advised Captain Nyholm that further hostile advances toward the Count would result in grave measures. Both the captain and the Count admitted their differences grew out of a business transaction.

MOBILIZATION IS FORBES' PLAN

Adjutant-General of California Would Concentrate Great Army Force Here.

SACRAMENTO, March 20.—Recommendation for the mobilization in California this summer of the western division of the United States army, augmented by the militia strength of all Rocky Mountain and Pacific Coast states in lieu of the biennial maneuvers of the regular army and militia forces of California, are contained in a report forwarded to the war department by Adjutant-General Forbes.

If General Forbes' suggestion is carried out it will be the first time in the history of this country that an army division has been mobilized in time of peace.

Three sites are suggested for staging

the mobilization at the vicinity of Klamath Falls, Ore., another in the Sacramento Valley and a third in Southern California or Arizona along the Mexican border line.

The full complement of the western division if the army embraces approximately 20,000 officers and men and includes nine regiments of infantry, one squadron of cavalry, one regiment of field artillery and engineering and hospital corps. In addition the National Guard and militia companies of the various states within the jurisdiction of the western army division, this force would be swelled by 10,000 additional officers and men.

General Forbes estimates the combined army and militia forces when thrown out in battle line would stretch over six miles from flank to flank. To move this force would be necessary to serve the purpose.

This plan, if carried out, would bring troops from Montana, Utah, Washington, Oregon, Nevada, Colorado, California, Arizona, Idaho and other mountain states.

SLUSH FUND SAID TO HAVE BEEN RAISED

WASHINGTON, March 20.—Stirred by reports that a fund of \$50,000 had been raised by prison contractors to defeat proposed legislation to regulate and restrict the transportation of convict-made goods in interstate commerce, the senate lobby committee today undertook to establish the facts in the case.

At Chairman Overman's request a subpoena had been served upon Edward Boyle, a Chicago attorney, formerly identified with the national conference of charities and corrections, who has been counsel for certain prison contracting firms. Boyle is now in Washington and it is said has been watching the progress of the pending Hughes bill.

If you have a persistent cough or cold, take warning before it is too late. Eckman's Alternative is more than a remedy; it is a restorative to health many persons who had serious lung trouble. "Gentlemen—During the winter of 1911 I contracted a severe cold which settled on my lungs. The doctor pronounced it lung trouble. I tried nearly every preparation without result and kept getting worse. Eckman's Alternative was recommended to me and I commenced using it as a last resort. In fact, I seemed to feel worse, but I kept on using the medicine and found out the first bottle had really started me on the road to recovery by loosening the mucus and making me expectorate freely. After using the medicine for some time my cough ceased. I gained flesh, and today I am a well man." (Signed) GEO. M. BATES.

today as the result of his demand last
night for the surrender to him of the

they placed the prefect in jail.

Beautiful Women and Equally Attractive
Gowns Make Hotel Oakland Scene
Brilliant

No more brilliant society affair has
been given in Oakland than the Mi-
careme ball at the Hotel Oakland last
evening. The soft tones of the ivory
ballroom made a perfect background
for the beautiful gowns of the women,
and the number of picture costumes

worn lent an added color and bril-
liance to the scene. Few of the men
essayed costume, but the somber
black evening clothes had a place in
the general color scheme.
Between dances the tables were
filled, and there were a number of
large parties that included guests
from San Francisco.
One picturesque group included
Mrs. Walton as a Chinese princess,
and with her were two other gor-
geously robed ladies of the Flowery
Kingdom.
In Mrs. Stuart Hawley's party, en-
tertained at dinner preceding the ball,
were Mr. and Mrs. Harry Chickering,
Mr. and Mrs. Roger Chickering, Mr.
and Mrs. Charles Bates and Mr. and
Mrs. William T. White, Mr. and Mrs.

'Wait Till I Get Pistol To Kill You,' He Waited

LOS ANGELES, March 20.—John
McMann, a laborer, waited on a street
corner here today while Andy Dacey,
another laborer, sought a revolver to
kill him. McMann's life was saved
a few minutes later by Frank Miller,
a mutual acquaintance, who thrust his
finger in the hammer of the weapon.
The three had been talking calmly
when, it was alleged, Dacey suddenly
remarked to McMann:
"Wait here a minute. I'm going
to kill you. I'm going to get a re-
volver."
Thinking Dacey was joking, Mc-
Mann walked toward him. Dacey then
a revolver and was about to fire it
at McMann when Miller's finger in-
tervened. After a short struggle De-
cey was overpowered and taken to the
police station.

Woman Seeks Poison

PORTLAND, Ore., March 20.—Mrs.
Edith Hawley confessed to the police
last night that she had sent six boxes
or poisoned candy through the mails
in an attempt to poison her three
step-children and Mrs. Alice Bentley,
at whose home R. H. Hawley, her
husband, has been living since escap-
ing from his wife recently, according
to the police department.
"I don't know what I was thinking,"
told the officers. "I just haven't any
use for the whole family. I saved
enough of the poison for myself to
take if it killed any of them."
So heavily impregnated with poison
was the candy that city chemist Gal-
loway, who tasted it, was overcome
and was saved by an antidote.
Mrs. Hawley is held on a charge of
attempted murder.

Ask Impeachment Of Japanese Cabinet

TOKIO, March 20.—The impeachment
of the Japanese cabinet on account of
the recent naval scandals in connection
with the receipt of illicit commissions by
naval officers was asked today in an
address to the Throne introduced in the
chamber by the opposition parties. The
address declares that the "scandals" are
a stain on the newly begun reign of the
emperor and are harmful to the prestige
of the Japanese navy both at home and
abroad.

ULSTER FORCES GATHER AT BELFAST

Sir Edward Carson Makes 2
Dramatic Entry; Volun-
teers Active.

BELFAST, March 20.—Sir Edward
Carson, the leader of the Unionist

the capital of the province today. His
purpose in coming was to consult with
the other Ulster Unionist leaders and
with the commanders of the Ulster
volunteer forces.

The great activity displayed at
Unionist headquarters and in the army
barracks have caused considerable ex-
citement among the people of Bel-
fast, who for some time have been expect-
ing momentarily some decisive move-
ment on the part of the Unionist
chiefs or the government.

Before landing Sir Edward Carson
received on board the steamer Sir
George Richardson, a retired lieu-
tenant general of the British army,
who is commander-in-chief of the
Ulster Unionist forces, together with
his chief officers.

ULSTER MEN GUARD OF HONOR.
As the party came down the gang-
way to the pier they found drawn up
as a guard of honor the emergency
force of picked men of the Ulster vol-
unteers, who had been summoned to
the Unionist headquarters at a late
hour last night.

A big crowd gave them a noisy
welcome, cheering wildly and firing
salvos into the air from their re-
volvers. During the night automo-
biles had been kept busy moving
stores and documents from the Union-
ist headquarters, apparently fearing a
raid by the police, who have been
keeping close watch on every move
made by the Unionists.

PRECAUTIONS ASKED.

Precautions of a rigorous character
have been taken at the Victoria mili-
tary barracks here. Extra guards are
on duty day and night. Trained in-
structions have been sent to the mili-
tary authorities in the south of Ire-
land to dispatch reinforcements im-
mediately to the garrisons in Ulster.

In response to instructions from
army headquarters a detachment of
200 infantry arrived at Newry today
from the Curragh and another 300
from Mullingar. The garrison of
Londonderry also was reinforced by
300 men from Mullingar and two war-
ships arrived in Dublin bay.

Feeling among the public in Bel-
fast has become tense since yester-
day's debate in parliament. Soon
after his arrival here Sir Edward Car-
son issued an appeal to his followers
to preserve calm.

JUDGE DECREES: 'FIGHT IT OUT'

Federal Jurist Wants Big Row Transferred From Courtroom to Corridor.

SAN FRANCISCO, March 20.—That Federal Judge Maurice T. Dooling, who hails from Holister, is not averse to a good mill if it is creditably pulled off far from judicial surroundings was indicated today when he offered to allow United States Attorney John W. Preston and Attorney Bert Schlesinger to leave court and fight it out.

Five of seventeen customs inspectors and others implicated with them had just pleaded guilty to a conspiracy to smuggle opium. Schlesinger, their counsel, and Preston became involved in a wordy war. Judge Dooling tried in vain to be heard.

"Gentlemen," he finally interjected, "this case should be heard in court without unnecessary noise. If you gentlemen want to continue this you have the court's permission to leave, go out in the corridor and fight it out. I will not take judicial notice of your actions there, but I insist upon order and decorum here."

Those who confessed their guilt and who will soon be sentenced are Young Tai, John McGeough, A. J. Tassell, and others.

There are many arrests on trial. Besides Bert Schlesinger, Attorney John L. McNab is appearing in their behalf.

The arrests of the seventeen men last year following a gigantic expose was most sensational. It was found that customs officers had been in league with watchmen, snip stewards and others and had brought in opium on the wholesale plan. Several had become rich during the three years that the ring operated.

TOOTHACHE ENDS DENTIST'S WOES

Doctor Tate Recovers "Evidence" When Prisoner, in Pain, Pleads Guilty.

When W. F. Roche got the toothache in the court, and pleaded guilty to robbing the office of Dr. P. Tate, a dentist of 1025 Washington street, he also, without the doctor's knowledge, recovered numerous of the doctor's patients from inconvenience caused by their false teeth plates and bridges being held in place by a "dental" pin at the burglar.

For several weeks since the robbery Roche has been indifferent to whether the doctor's patients take milk-teeth or roast beef, and for the same length of time the dentist has made frantic appeals to the police and to Superior Judge Ogden to be allowed to take possession of his dental work in order that he might accommodate his patients.

Just as his own patience was at the breaking point, owing to the uncompromising attitude of Roche the burglar, got the toothache in the county jail. His servants were touched along with the ever active pin and he announced that he would plead guilty and throw himself upon the recommendations of the probation office and the mercy of the court.

As a result Superior Judge Ogden made an order today by which Dr. Tate was given possession of his dental work, as it was no longer needed as evidence against Roche.

Seeks Belmont Coin-Sack Mrs. Ray Wants Alimony

MRS. RAYMOND BELMONT, WHO IS SUING SON OF AUGUST BELMONT FOR ALIMONY.

NEW YORK, March 20.—Ethel Lorraine Belmont, former show girl and wife of Raymond Belmont, son of August Belmont, appeared in court today to demand alimony from her wealthy spouse. Young Belmont had begged examination in court by visiting Lord Curzon in England, but his wife placed the matter before the Supreme Court with the view to gaining her contention by default.

The former show girl, whose marriage to the son of the noted millionaire and later separation attracted nationwide attention, demands a divorce and with it alimony sufficient to support her. Young Belmont, when he heard the suit was coming, hastily left for England. The court will probably pass on the alimony claims this week.

DOCTOR BLUE WARNS AGAINST FEVER GERMS

WASHINGTON, March 20.—Surgeon General Blue of the public health service today made public an open letter to managers and masters of lake and river vessels, calling attention to typhoid fever among seamen employed aboard merchant vessels and urging co-operation in an effort to stamp out the disease.

He presented statistics to show that there were admitted to United States Marine hospitals during the fiscal year ended June 30 last, 392 cases of typhoid fever among the personnel of the merchant marine, in addition to many others treated at public hospitals and at home.

These 392 cases according to Dr. Blue represent in the aggregate a loss of eighty years in actual working time and of \$44,000 in wages. "In terms of dollars and cents alone," he says "this is a rather heavy price to pay for an entirely preventable disease. The surgeon general strongly urged that all shipping interests recommend and encourage their employees to immunize themselves against infection by the use of typhoid prophylactic.

BUICK SALESHOME COMPLETED; PLAN CELEBRATION TOMORROW

THE NEW SALES HOME AND SERVICE DEPARTMENT OF THE HOWARD AUTOMOBILE COMPANY, JUST COMPLETED IN THE UPPER BROADWAY AUTO ROW FOR THE HANDLING OF THE BUICK AUTOMOBILES IN THIS TERRITORY.

(By EDMUND CRINNON.)
With entertainment, refreshments and sociability in view, the new Buick saleshome and service department in the upper Broadway auto row will be thrown open officially tomorrow

afternoon from 2:30 to 10:30 p. m., according to the arrangements which have been made by Manager G. H. McCutcheon of the Howard Automobile Company.

The new Buick home in the upper Broadway auto row has attracted much attention among the motoring fraternity in Alameda county, through its cleverness in detail for the accomplishment of such purposes for which a combined saleshouse and service station are intended. The general scheme of architecture and the finish with which the building has been furnished has resulted in some very flattering praise for the taste shown by McCutcheon.

The building is not entirely completed and finished. Practically every little detail in the furnishing of it has been attended to and as the result when the visitors partake of the Howard Auto Company hospitality tomorrow afternoon they will see the new Buick home in its best dress.

While the company will, as usual, have a complete line of cars on hand tomorrow for the benefit of visitors immediately interested, the keynote of the opening day event will be Buick hospitality according to McCutcheon. He extends a cordial invitation for all to spare time enough tomorrow between the hours of 2.30 and 10.30 p. m. to join in the social feature of the opening day.

VAPORIZING DEVICE
Experiments with the Sullivan patent distillate vaporizer which have been made from the Ford automobile agency on Twelfth street during the past few days have shown results which are of astonishing interest to all owners of gasoline-driven vehicles, according to H. A. Wood, the local agent, who says:

"This simple device is set between the engine and the radiator and consists essentially of a small copper disc, against which the fuel is impelled. This disc being heated by the exhaust, breaks up the fuel and causes a perfect combustion, which eliminates carbon deposits in the engine and increases the motive power of gasoline by 70 per cent."

"Used with distillate at 6 1/2 cents per gallon in place of gasoline at 16 1/2 cents per gallon a five-passenger Ford, carrying four men, made thirty-

two miles on one gallon of distillate, thus reducing the fuel expense of the car to less than one-quarter of a cent.

"The introduction of this new appliance for the reduction of cost of motive power in automobiles makes an immediate and sweeping relief for the fuel market and at once places the automobile in an unassailable position as the cheapest mode of transportation."

"Graham & Eldridge of Los Angeles, district agents for the Dayton Scale Company, are selling agents for the United States and H. A. Wood, a well-known Oakland business man, formerly with the National Cash Register Company, is general agent for Northern California, with offices at 205 Twelfth street."

MONIS INVOLVED BY PUBLIC PROSECUTOR

PARIS, March 20.—The Parliamentary scandal over the escape of Henri Rochette, so-called "king of swindlers," was brought to a crisis today, when Victor Fabre, public prosecutor, testified before a committee of the Chamber of Deputies: "It is true that I received the order from Premier Monis to postpone the Rochette trial."

PARIS, March 20.—A group of Royalists assembled after the funeral of Guston Calmette, editor of *Figaro*, who was slain by Madame Cailleaux today, seized and caned an individual who yelled "Assassin Cailleaux." The man sought refuge in a store and fired into the crowd. Several persons were wounded. The police charged the mob vigorously.

Ernest Monis, former premier of France, appeared today before the investigating committee of the chamber of deputies to explain his part in the scandal connected with the delay in the trial of Henri Rochette, who is said to have swindled the French public out of many millions.

Jean Jaures, the Socialist leader, presided over the committee. He requested Monis to tell in his own way what happened in the affair. Monis said: "Joseph Cailleaux, then minister of finance, called on me early in March, 1911, and mentioned the approaching trial of Henri Rochette. He said that one of the lawyers desired the postponement of the proceedings. Cailleaux advised me to postpone the trial."

ASKED PROSECUTOR'S OPINION.
"Now, as to Victor Fabre, the public prosecutor, he had called upon me four or five times during my membership to report to me on various subjects. On this occasion, I inquired whether on account of the financial situation, the trial could be deferred."

M. Fabre replied that to send the Rochette affair back to the investigating judge would not affect the trial itself, but would be evilly interpreted by public opinion. I remarked that was a question for the presiding judge of the court to dispose of."

"No pressure whatever was placed upon M. Fabre. He left me in an amiable mood and stood outside my room talking with my son for 20 minutes, during which he expressed the esteem and admiration I had for him."

CABINET VACANCY FILLED.
The gap in the French cabinet caused by the resignation of Premier Monis from the ministry of marine, was filled today by the appointment of Senator Armand Elzea Gauthier, a former minister of public works.

Premier Doumergue, who had been much disturbed by the withdrawal from the cabinet of Joseph Cailleaux after Madame Cailleaux had assassinated Guston Calmette, special commissioner for Gauthier, a member of the same political group, to assist him.

Hours before the procession vast crowds filled the streets. Among the notable personages present at the funeral were: J. J. Louber, former president of the republic, Aristide Briand and Louis Barthou, former premiers, Prince Murat, Baron Robert de Rothschild, Fernand Leger, the attorney who is to defend Madame Cailleaux, Sarah Bernhardt and hundreds of others.

Some of the many eulogies in the procession were: "A Victim of his devotion to his country," and "Killed on the field of honor."

High prices were paid for advertising space along the route of the funeral procession which to see the procession. There were also many people who were present to see the procession. A simple mass funeral was held in the church. A simple mass funeral was held in the church.

Oranges for Health

Doctor Harvey W. Wiley, the greatest authority on pure foods and dietetics in the world says: "Eat oranges; eat them in winter, eat them in summer; they are better for you than physic."

In an interview, Dr. Wiley says: "Oranges are excellent for people. It is good to eat oranges for breakfast, and also for dinner—not from a medical, but an anti-medical standpoint."

"Both oranges and lemons ought to be used freely."

"Note that I do not say 'Eat an orange for breakfast', but rather, 'EAT ORANGES'."

Wallops Can't Be Gained by Practicing in the Gymnasium

Real punches in the ring must acquire their wallop from hard work, not from training in a gymnasium. It was the years of hard work at the farm that made a fighter out of Fitzsimmons and developed that wonderful punch. No gymnasium athlete need ever expect to acquire a wallop that will equal the Fitzsimmons job. It takes the toughening process of hard physical day after day labor to make a real fighting man of the prizefighter type.

Jim Corbett was the most able exponent of all those who became champions without first having their muscles toughened by daily hard work. Corbett was a fine gymnasium athlete with brains, speed and skill, but in the ring he was a failure. He could neither take nor deal out a punch. He was a superior athlete, but he was not a fighter. He was a champion, but he was not a champion.

Special Train Will Carry 500 Rooters to Ball Game at Niles

Next Sunday Kahn Bros' crack team will be accompanied by about 400 rooters when they make their trip to Niles to play the first game from that place. A train of five coaches has been chartered and the way the tickets are going it looks like a full house.

The special train will leave First and Broadway at 8:30 a. m.

This game should be a good one as both teams are rated among the top-notchers of the semi-pro. Niles has in "adder, Dolan and Sund the best semi-pro battery in the state. Dolan last season for Niles made a great record for himself by establishing a strike-out record of ten to twenty-one men in every game he pitched. Catcher Sund, his battery mate, is well known in baseball circles and is a star behind the bat. Last season he caught several games for the Seals and the balance of the season he caught

ST. PAUL'S DEBT TO BE REDUCED

Members Hold Meeting and
Subscribe: Current Ex-
penses Curtailed.

Determined to reduce the debt on the new building of St. Paul's Episcopal Church, Mother and Grand avenue, St. Paul's last evening at a special meeting of the parish. Forty-two members of the church pledged the sum and a committee of representatives was appointed to visit the various families afflicted with the church in an effort to secure funds to aid in paying the mortgage of \$73,322. Through reduction in the current monthly expenses, embracing cuts of \$87.50 in choir salaries and \$100 saved by the resignation of Rev. R. Franklin Hart, curate of the church, the deficit will be adjusted. Rev. Alexander Allen, rector of St. Paul's church, presided at the meeting. He will remain head of the church and will attend to all the ministerial affairs without the aid of an assistant. The leading women of the congregation offered their services for the moral work and volunteered to assume responsibility in the various parish duties.

B. A. McAlister of the vestry committee, who read a report on the financial status of the church last evening, will explain the situation on St. Paul's services next Sunday morning.

The church owns about \$55,000 worth of property, which it plans to sell and thereby reduce the mortgage on the new edifice.

SAYS CROPS MEAN PROSPEROUS YEAR

Sproule Optimistic; Tells of
Future Plans; to Delay
Improvements.

SAN FRANCISCO, March 20.—President William Sproule of the Southern Pacific who returned yesterday after a fortnight's stay in New York, stated that the 1914 crops will be the measure of prosperity for the Pacific coast. Improvements, extensions and other questions involving expenditure are not to be considered at this time, according to President Sproule.

"We are engaged in a strenuous effort to keep our heads above water," said President Sproule. "Southern Pacific earnings, like those of all other railroads, are falling so fast that we are unable to spend money."

"The same reason there is no immediate possibility of electrification of the peninsula lines to San Mateo."

"We are not contemplating this improvement because we have no money and because capital is not inclined to favor electric railways as an investment, owing to the experience of electric lines in this and other states."

In official circles nor are any new policies to be introduced as a result of President Sproule's visit. Julius Kruttschnitt and the other Eastern officials of the road.

It was made known yesterday that Vice-President William H. Hall will direct the defense in the suit of the Central Pacific and Southern Pacific to be tried at Salt Lake. President Sproule characterized this action as a "sneak attack" and stated that the prosperity of the whole coast.

After expressing appreciation of the support that had been rendered by the commercial bodies of the states interested, he said:

"I feel myself I cannot help feeling that the suit has been brought under grave misapprehension and that this will develop quickly as the case proceeds. We appreciate fully the spirited attitude of the communities we serve and wish to reiterate our cordiality in working out the suit with them, but we are confident that there will be a favorable conclusion. The answer to the complaint of the Government will be filed as soon as counsel are ready."

"Like all other railroads in the United States we are chiefly engaged in present in carrying out our obligations to the public. Railroad earnings generally are so poor their unavoidable expenses so high and business throughout the country so prostrate that it takes an optimist to maintain the belief that this condition will pass with this winter, which has just begun."

"I believe we of the Pacific Coast are more hopeful than the States east of us, and, without being a prophet, I cannot resist the belief that with the promise of abundant crops on this coast we should forge ahead and help to get prosperity started once more."

"It is largely, rests with the President of the United States and it is encouraging to know that he is intensely interested in the problem of restoring prosperity. If he solves it this nation should go bounding ahead beyond our expectations."
